'Robert Peston's compelling account of global financial meltdown is a must-read.' Observer What can we learn from the 2008 recession? ITV's political editor explains the global economic mess and how to escape it - in his characteristically straightforward way. 'How do we fix this mess? I don't know. But don't stop reading now. Perhaps if we have a clearer understanding of what went wrong, we'll have a better idea of what needs to be done. This book is a map of what needs to be fixed.' The record-breaking unbroken growth between 1992 and 2008 wasn't the economic miracle that it seemed. It was based on a number of dangerous illusions - most notably that it didn't matter that the UK and US year after year consumed more than they earned. But we couldn't go on increasing our indebtedness forever. The financial crash of 2007/8 and the subsequent economic slump in much of the west was the moment when we realised we had borrowed more than we could afford to repay. So who got it wrong? Bankers, investors and regulators? And were they greedy, stupid or asleep? What was the role of government? And what part did we, as consumers, play in all this? How do we get through this difficult period of transition to a more sustainable economy, one based on investment and exports, rather than on

borrowing and consumption? With the same probing lucidity he brought to *Who Runs Britain?* and *WTF?*, Robert Peston takes us step-by-step towards a common sense way to fix this mess.

In Robert Peston's book he explains how the world got itself into the current economic mess - and how we might get out of it.

From Mike Michalowicz, the author of *PROFIT FIRST*, *CLOCKWORK*, and *THE PUMPKIN PLAN*, comes the ultimate diagnostic tool for every entrepreneur. The biggest problem entrepreneurs have is that they don't know what their biggest problem is. If you find yourself trapped between stagnating sales, staff turnover, and unhappy customers, what do you fix first? Every issue seems urgent -- but there's no way to address all of them at once. The result? A business that continues to go in endless circles putting out urgent fires and prioritizing the wrong things. Fortunately, Mike Michalowicz has a simple system to help you eradicate these frustrations and get your business moving forward, fast. Mike himself has lived through the struggles and countless distractions of entrepreneurship, and devoted years to finding a simple way to pinpoint exactly where to direct attention for rapid growth. He figured out that every business has a hierarchy of needs, and if you can understand where you are in that hierarchy, you can identify what needs immediate attention. Simply fix that one thing next, and your business will naturally and effortlessly level-up. Over the past decade, Mike has developed an ardent following for his funny, honest, and actionable insights told through the stories of real entrepreneurs. Now, *Fix This Next* offers a simple, unique, and wildly powerful business compass that has already helped hundreds of companies get to the next level, and will do the same for you. Immediately.

We all know the bad news. Our economies are stagnant. Wages are flat and income inequality keeps rising. The Middle East is burning and extremism is spreading. Frightened voters are embracing populist outsiders and angry nationalists. And no wonder: we are living in an age of unprecedented, irreversible decline—or so we're constantly being told. Jonathan Tepperman's *The Fix* presents a very different picture. It identifies ten pervasive and seemingly impossible challenges—including immigration reform, economic stagnation, political gridlock, corruption, and Islamist extremism—and shows that, contrary to the general consensus, each has a solution, and not merely a hypothetical one. By taking a close look at overlooked success stories—from countries as diverse as Canada, Botswana, and Indonesia—Tepperman discovers practical advice for problem-solvers of all stripes, making a data-driven case for optimism in a time of crushing pessimism.

An instant #1 New York Times bestseller. The definitive behind-the-scenes story of Trump's final year in office, by Phil Rucker and Carol Leonnig, the Pulitzer-Prize winning reporters and authors of *A Very Stable Genius*. “Chilling.” – Anderson Cooper “Jaw-dropping.” – John Berman “Shocking.” – John Heilemann “Explosive.” – Hallie Jackson “Blockbuster new reporting.” – Nicolle Wallace “Bracing new revelations.” – Brian Williams “Bombshell reporting.” – David Muir The true story of what took place in Donald Trump's White House during a disastrous 2020 has never before been told in full. What was really going on around the president, as the government failed to contain the coronavirus and over half a million Americans perished? Who was influencing Trump after he refused to concede an election he had clearly lost and spread lies about election fraud? To answer these questions, Phil Rucker and Carol Leonnig reveal a dysfunctional and bumbling presidency's inner workings in unprecedented, stunning detail. Focused on Trump and the key players around him—the doctors, generals, senior advisers, and Trump family members—Rucker and Leonnig provide a forensic account of the most devastating year in a presidency like no other. Their sources were in the room as time and time again Trump put his personal gain ahead of the good of the country. These witnesses to history tell the story of him longing to deploy the military to the streets of American cities to crush the protest movement in the wake of the killing of George Floyd, all to bolster his image of strength ahead of the election. These sources saw firsthand his refusal to take the threat of the coronavirus seriously—even to the point of

Read Online How Do We Fix This Mess The Economic Price Of Having It All And The Route To Lasting Prosperity

allowing himself and those around him to be infected. This is a story of a nation sabotaged—economically, medically, and politically—by its own leader, culminating with a groundbreaking, minute-by-minute account of exactly what went on in the Capitol building on January 6, as Trump's supporters so easily breached the most sacred halls of American democracy, and how the president reacted. With unparalleled access, Rucker and Leonnig explain and expose exactly who enabled—and who foiled—Trump as he sought desperately to cling to power. A classic and heart-racing work of investigative reporting, this book is destined to be read and studied by citizens and historians alike for decades to come.

We all want to be happier, more successful and less stressed, but what really works? From improving creativity to building confidence, self-care to self-esteem, forming better habits and feeling happier, *Fix Your Life* debunks the fads and explores the real science of self-help. Can you learn to make better decisions? Or break bad habits and form new ones? What should you eat to feel happier? How do you learn a skill faster? Does mindfulness really work? Dispelling mental health myths and self-help fads, here is the truth about meditation, making smarter choices, addiction, CBT, Tai Chi, success, diet, healthy relationships, anxiety, antidepressants, intelligence, willpower and much more. Full of the latest research and ground-breaking evidence, packed with useful advice, this book really could fix your life.

Internet entrepreneur Andrew Keen was among the earliest to write about the dangers that the Internet poses to our culture and society. His 2007 book *The Cult of the Amateur* was critical in helping advance the conversation around the Internet, which has now morphed from a tool providing efficiencies and opportunities for consumers and business to a force that is profoundly reshaping our societies and our world. In his new book, *How to Fix the Future*, Keen focuses on what we can do about this seemingly intractable situation. Looking to the past to learn how we might change our future, he describes how societies tamed the excesses of the Industrial Revolution, which, like its digital counterpart, demolished long-standing models of living, ruined harmonious environments and altered the business world beyond recognition. Travelling across the globe, from India to Estonia, Germany to Singapore, he investigates the best (and worst) practices in five key areas - regulation, innovation, social responsibility, consumer choice and education - and concludes by examining whether we are seeing the beginning of the end of the America-centric digital world. Powerful, urgent and deeply engaging, *How to Fix the Future* vividly depicts what we must do if we are to try to preserve human values in an increasingly digital world and what steps we might take as societies and individuals to make the future something we can again look forward to.

Imagine if we treated broken hearts with the same respect and concern we have for broken arms? Psychologist Guy Winch urges us to rethink the way we deal with emotional pain, offering warm, wise, and witty advice for the broken-hearted. Real heartbreak is unmistakable. We think of nothing else. We feel nothing else. We care about nothing else. Yet while we wouldn't expect someone to return to daily activities immediately after suffering a broken limb, heartbroken people are expected to function normally in their lives, despite the emotional pain they feel. Now psychologist Guy Winch imagines how different things would be if we paid more attention to this unique emotion—if only we can understand how heartbreak works, we can begin to fix it. Through compelling research and new scientific studies, Winch reveals how and why heartbreak impacts our brain and our behavior in dramatic and unexpected ways, regardless of our age. Emotional pain lowers our ability to reason, to think creatively, to problem solve, and to function at our best. In *How to Fix a Broken Heart* he focuses on two types of emotional pain—romantic heartbreak and the heartbreak that results from the loss of a cherished pet. These experiences are both accompanied by severe grief responses, yet they are not deemed as important as, for example, a formal divorce or the loss of a close relative. As a result, we are often deprived of the recognition, support, and compassion afforded to those whose heartbreak is considered more significant. Our heart might be broken, but we do not have to break with it. Winch

Read Online How Do We Fix This Mess The Economic Price Of Having It All And The Route To Lasting Prosperity

reveals that recovering from heartbreak always starts with a decision, a determination to move on when our mind is fighting to keep us stuck. We can take control of our lives and our minds and put ourselves on the path to healing. Winch offers a toolkit on how to handle and cope with a broken heart and how to, eventually, move on.

Top political insider Douglas E. Schoen dissects the failures of modern politics and unveils the practical-minded, citizen-powered solutions that will revive American democracy One of America's foremost political pollsters, Douglas E. Schoen, shows how the electoral system can be mended so that it once again serves and inspires the American people—no matter their party. In *The Political Fix*, Schoen lays out provocative yet highly achievable solutions—from completely unmoderated debates to a rotating primary schedule—that will compel politicians to be responsive to citizens rather than to special interests. To ensure justice for all, he calls for removing the attorney general from the cabinet and creating joint chiefs of staff for the Justice Department. He points to innovations on the state and local level—from Alaska, where the state checkbook is posted on the Web, to New York City, where residents can call a single toll-free number to access government services. And he argues that the obsession with capping the influence of large donors has strangled genuine reform—and the answer is to get more money into politics, through a tax credit for small donors. Schoen provides a rallying cry and an action plan for the thousands of Americans hungry for long-lasting political change.
