There is basic formula from classical mechanics to make an object jump. $F = 1/2 * m * v^2$. Where F is the force up/down, m is the mass of the object and v is the velocity. The velocity goes down over time because when the object jumps the velocity will not increase more in this simulation. When object reaches the ground, the jump ends.

“A lively and inspiring guidebook for anyone who wants to make the jump from normal to extraordinary.” —Tony Robbins, #1 New York Times bestselling author of Unshakeable and MONEY: Master the Game An inspirational book that lays out the “Jump Curve”—four steps to wholeheartedly pursuing the career of your dreams—through experiences from a variety of people who have jumped and never looked back When Mike Lewis was twenty-four and working in a prestigious corporate job, he eagerly wanted to leave and pursue his dream of becoming a professional squash player. But he had questions: When is the right time to move from work that is comfortable to a career you have only dared to dream of? How have other people made such a jump? What did they feel when making that jump—and afterward? Mike sought guidance from others who had “jumped,” and the responses he got—from a banker who started a brewery, a publicist who became a Bishop, a garbage collector who became a furniture designer, and on and on—were so clear-eyed and inspiring that Mike wanted to share what he had learned with others who might be helped by those stories. First, though, he started playing squash professionally. The right book at the right time, When to Jump offers more than forty heartening stories (from the founder of Bonobos, the author of The Big Short, the designer of the Lyft logo, the Humans of New York creator, and many more) and takeaways that will inspire, instruct, and reassure, including the ingenious four-phase Jump Curve.

This collection of articles were originally published in equestrian magazines in the early part of the 20th century. Carefully selecting the best articles from our collection we have compiled a series of historical and informative publications on the subject of horse riding. The titles in this range include 'The Use of Horses in the Military,' 'The Sport of Point-to-Point Horse Riding,' 'The Beautiful Sport of Horse Racing,' and many more. Each publication has been professionally curated and includes all details on the original source material. This particular instalment, 'The Sport of Show Jumping and its Techniques' contains a variety of articles on the history and methods of show jumping. Many of the earliest books, particularly those dating back to the 1900's and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions.

James Russell Lowell had already pronounced the "Frog" story "the finest piece of humorous writing yet produced in America." We are sure he would also have bestowed this word of praise upon the remaining stories that make up this small volume, though the title sketch is definitely the redeeming feature of the collection.
