In October 1928 Virginia Woolf was asked to deliver speeches at Newnham and Girton Colleges on the subject of 'Women and Fiction'; she spoke about her conviction that 'a woman must have money and a room of her own if she is to write fiction'. The following year, the two speeches were published as *A Room of One's Own*, and became one of the foremost feminist texts. Knitted into a polished argument are several threads of great importance - women and learning, writing and poverty - which helped to establish much of feminist thought on the importance of education and money for women's independence. In the same breath, Woolf brushes aside critics and sends out a call for solidarity and independence - a call which sent ripples well into the next century. 'Brilliant interweaving of personal experience, imaginative musing and political clarity' - Kate Mosse, *The Guardian* 'Probably the most influential piece of non-fictional writing by a woman in this century.' - Hermione Lee, *The Financial Times*

Whether you work in Hollywood or not, the fact is that selling ideas is really difficult to do. The reason the pitching secrets of the most successful writers and directors are relevant is because these people have evolved an advanced method for selling ideas. Whether you're a screenwriter, a journalist with an idea for a story, an entrepreneur with a business plan, an inventor with a blueprint, or a manager with an innovative solution, if you want other people to invest their time, energy, and money in your idea, you face an uphill battle... When I was at MGM, the hardest part of my job was not cutthroat studio politics or grueling production schedules. The toughest part of my job was whenever I had to say "No" to an idea that was almost there. I had to say no a lot. Every buyer does. The buyer's work is to say yes to projects that are ready, not almost ready. And no matter how good the script is, if the seller can't pitch it in a compelling way, how can the buyer see the potential? How can he get his colleagues on board? How can he recommend the seller to his superiors? The fact is that poor pitches doom good projects. It happens all the time. The ideas, products and services that are pitched more effectively... win. That's just how the game is played. No sense getting upset over it. Instead, let's accept the challenge and learn the strategies and tactics that will allow us (and our ideas) to succeed.

-From GOOD IN A ROOM Business consultant and former MGM Director of Creative Affairs Stephanie Palmer reveals the techniques used by Hollywood's top writers, producers, and directors to get financing for their projects - and explains how you can apply these techniques to be more successful in your own high-stakes meetings. Because, as Palmer has found, the strategies used to sell yourself and your ideas in Hollywood not only work in other businesses, they often work better. Whether you are a manager or executive with an innovative proposal, a professional with a hot concept, a salesperson selling to a potential client or investor, or an entrepreneur with a business plan, GOOD IN A ROOM shows you how to: Master the five stages of the face-to-face meeting Avoid the secret dealbreakers of the first ninety seconds Be confident in high-pressure situations Present yourself better and more effectively than you

ever have before Whether you want to ask for a raise, grow your client list, launch a new business or find financing for a creative project, you must not only present your ideas in a compelling way - you must also sell yourself, as well. GOOD IN A ROOM shows you how to construct a winning presentation and deliver the kind of performance that will get your project greenlighted, whatever industry you are in.

A hilarious and indispensable guide to the weirdness of the workplace from Esquire editor and Entrepreneur etiquette columnist Ross McCammon Ten years ago, Ross McCammon made an incredible and unexpected transition from working at an in-flight magazine in suburban Dallas to landing his dream job at Esquire in New York. What followed was a period of almost debilitating anxiety and awkwardness—interspersed with minor instances of professional glory—as McCammon learned how to navigate the workplace while feeling entirely ill-equipped for achieving success in his new career. Works Well with Others is McCammon's "relentlessly funny and soberingly insightful"* journey from impostor to authority, a story that reveals the workplace for what it is: an often absurd landscape of ego and fear guided by social rules that no one ever talks about. By mining his own experiences at the magazine, McCammon provides advice on everything from firm handshakes to small talk in elevators to dealing with jerks and underminers. Here is an inspirational new way of looking at your job, your career, and success itself; an accessible guide for those of us who are smart, talented, and ambitious but who aren't well—"leveraged" and don't quite feel prepared for success . . . or know what to do once we've made it.
