**Past Paper 2**  
this book describes a program to prepare IB Middle Years Program (MYP) students to enter the Diploma Program (DP) taking HL Further Math as their only math course. The program is

# File Type PDF Ib Maths HI 2013

modeled on the  
ATYP program  
from Kalamazoo  
MI started by  
Carol McCarthy.

This e-book  
focuses  
primarily on the  
role of the  
fornix as a  
functional,  
prognostic, and  
diagnostic

marker of Paper 2

Alzheimer's disease (AD), and the application of such a marker in clinical practice.

Researchers have long been focused on the cortical pathology of AD, since the most

File Type PDF Ib

Maths HI 2013

Important Paper 2

pathologic features are the senile plaques found in the cortex, and the neurofibrillary tangles and neuronal loss that start from the entorhinal cortex and the hippocampus. In addition to gray

structures, hist  
opathological  
studies indicate  
that the white  
matter is also  
altered in AD.  
The fornix is a  
white matter  
bundle that  
constitutes a  
core element of  
the limbic  
circuits, and is

File Type PDF Ib  
Maths HI 2013

One of the most important anatomical structures related to memory. The fornices originate from the bilateral hippocampi, merge at the midline of the brain, again divide into the

(precommissural

(postcommissural  
fornix). These  
functional and  
anatomical  
features of the  
fornix have  
naturally  
captured  
researchers'  
attention as  
possible  
diagnostic and  
prognostic  
markers of AD.

File Type PDF Ib  
Maths HI 2013

Growing evidence indicates that the alterations seen in the fornix are potentially a good marker with which to predict future conversion from mild cognitive impairment to AD, and even from a

normal state to AD. The degree of alteration is correlated with the degree of memory impairment, indicating the potential for the use of the fornix as a functional marker.

# File Type PDF Ib Maths HI 2013

Moreover, there have been attempts to stimulate the fornix to recover the cognitive function lost with AD. Our goal is to provide information about the status of current
