Science Florida
Course 2

Concepts of Biology
is designed for the
single-semester
introduction to
biology course for
non-science majors,
which for many
students is their
only college-level
science course. As
such, this course
represents an
important

Acces PDF

Interactive

opportunity for Florida

students to develop

the necessary

knowledge, tools,

and skills to make

informed decisions

as they continue

with their lives.

Rather than being

mired down with

facts and

vocabulary, the

typical non-science

major student

Acces PDF

Interactive

needs information
presented in a way
that is easy to read
and understand.

Even more
importantly, the
content should be
meaningful.

Students do much
better when they
understand why
biology is relevant
to their everyday
lives. For these

Acces PDF

Interactive

reasons, Concepts

of Biology is

grounded on an

evolutionary basis

and includes

exciting features

that highlight

careers in the

biological sciences

and everyday

applications of the

concepts at

hand. We also strive

to show the

Acces PDF

Interactive

interconnectedness
of topics within this
extremely broad
discipline. In order
to meet the needs
of today's
instructors and
students, we
maintain the overall
organization and
coverage found in
most syllabi for this
course. A strength
of Concepts of

Acces PDF

Interactive

Biology is that
instructors can
customize the book,
adapting it to the
approach that
works best in their
classroom.

Concepts of Biology
also includes an
innovative art
program that
incorporates critical
thinking and clicker
questions to help

Access PDF
Interactive
Students Florida
understand--and
apply--key
concepts.

The SOLARO Study
Guide is designed to
help students

Page 58/64

Acces PDF

Interactive

achieve success in

school. It is a complete guide to be used by students throughout the school year for reviewing and understanding course content, and for preparing for assessments. The content in Texas High School Biology is specifically

Acces PDF

Interactive

aligned to the Florida

Texas state

standards for those

who intend to have

students complete

biology by the end

of high school. Each

Class Focus

includes the

following sections:

Structure and

Function of Living

Things; Genetics;

Evolution and

Acces PDF

Interactive

Classification; Florida

Biological
Course 2

Macromolecules

and Metabolism;

Biological Systems;

and Ecosystems.

To create this book,
teachers,

curriculum

specialists, and

assessment experts

have worked

closely to develop

the instructional

Acces PDF

Interactive

pieces that explain each of the key concepts for the course. The practice questions and sample tests have detailed solutions that show problem-solving methods, highlight concepts that are likely to be tested, and point out potential sources of

Acces PDF

Interactive

Science Enhanced Florida

Course 2
errors. Enhanced
treatment of
concepts, more
practice sections,
and additional
learning tools are
found in the
accompanying
online version of
SOLARO which may
be accessed
through the web or
on mobile devices.
