~~Introducing Machiavelli: A Graphic Guide / AvaxHome~~

Introducing Machiavelli reveals that there was more to Machiavelli than a man who wrote handbooks f They're essentially text books in the form of a graphic novel. Most people have heard the phrase "Machiavellian" yet know little about the man or his theories, and I include myself in that.

Illustrated guide to the crucial Italian philosopher and author of *The Prince*. 'Machiavellian' is a popular byword for treachery and opportunism. Machiavelli's classic book on statecraft, *The Prince*, published over 400 years ago, remains controversial to this day because of its electrifying frankness as a practical guide to power. Is it a how-to manual for dictators, a cynical philosophy of 'the end justifies the means', or a more complex and subtle analysis of successful government? Machiavelli was a loyal servant of the Florentine republic. His opposition to Medici despotism led him to torture on the rack and exile, and yet he chose as his model for the Prince the most notorious tyrant, Cesare Borgia. *Introducing Machiavelli* traces the colourful life of this paradoxical realist whose clear-sighted patriotism made him the first truly modern political scientist. Machiavelli is seen as central to the postmodern debate on Civil Society. This book brings the creative turbulence of Renaissance Italy to life, and presents a compelling portrait of a key figure of European political history.

This book brings the creative turbulence of Renaissance Italy to life, and presents a compelling portrait of a key figure of European political history.

Richard Appignanesi goes on a personal quest of Existentialism in its original state. He begins with Camus' question of suicide: 'Must life have a meaning to be lived?' Is absurdity at the heart of Existentialism? Or is Sartre right: is Existentialism 'the least scandalous, most technically austere' of all teachings? This brilliant Graphic Guide explores Existentialism in a unique comic book-style.

Niccolò Machiavelli's *The Prince* is one of the most influential works in the history of political thought and the adjective Machiavellian is well-known and perhaps even over-used. So why does the meaning of the text continue to be debated to the present day? And how does a contemporary reader get to grips with a book full of references to the politics of the early 16th Century? The Routledge Guidebook to Machiavelli's *The Prince* provides readers with the historical background, textual analysis, and other relevant information needed for a greater understanding and appreciation of this classic text. This guidebook introduces: the historical, political and intellectual context in which Machiavelli was working the key ideas developed by Machiavelli throughout the text and the examples he uses to illustrate them the relationship of *The Prince* to *The Discourses* and Machiavelli's other works Featuring a timeline, maps and

suggestions for further reading throughout, this book is an invaluable guide for anyone who wants to be able to engage more fully with *The Prince*.

Machiavelliana is the first comprehensive study of the uses and abuses made of Niccolò Machiavelli's name in management, primatology, leadership, power, as well as in novels, plays, commercial enterprises, television dramas, operas, rap music, children's books, and more.

Essential illustrated guide to key ideas of political thought. Philosophers have always asked fundamental and disturbing questions about politics. Plato and Aristotle debated the merits of democracy. The origins of society, the state and government authority were issues addressed by Hobbes, Rousseau, Hegel, Marx and many other philosophers. *Introducing Political Philosophy* explains the central concepts of this intriguing branch of philosophy and presents the major political theorists from Plato to Foucault. How did governments get started? Why should they be obeyed? Could we live without them? How much power should they have? Is freedom a right? Which is the best form of government? In the wake of consumerism and postmodernism, our need for a better grasp of political ideas is greater than ever. Dave Robinson's account of this complex subject is always clear, informative and accompanied by the entertainingly inventive illustrations of Judy Groves.

Explores the origins of the field in Britain and its migration to the USA, Canada, France, Australia, and South Asia, examining the ideas of its leading exponents and providing a flavor

of its use around the world.

INTRODUCING guide to the father of existentialism and one of 20th century philosophy's most famous characters. Jean-Paul Sartre was once described as being, next to Charles de Gaulle, the most famous Frenchman of the 20th century. Between the ending of the Second World War in 1945 and his death in 1980, Sartre was certainly the most famous French writer, as well as one of the best-known living philosophers. Introducing Sartre explains the basic ideas inspiring his world view, and pays particular attention to his idea of freedom. It also places his thinking on literature in the context of the 20th century debate on its nature and function. It examines his ideas on Marxism, his enthusiasm for the student rebellion of 1968, and his support for movements of national liberation in the Third World. The book also provides a succinct account of his life, and especially of the impact which his unusual childhood had on his attitude towards French society.

In the four and a half centuries since Machiavelli's death, no single and unanimously accepted interpretation of his ideas has succeeded in imposing itself upon the lively debate over the meaning of his works. Yet there has never been any doubt about the fundamental importance of Machiavelli's contribution to Western political theory. The Portable Machiavelli brings together the complete texts of The Prince, Belfagor, and Castruccio Castracani, newly translated by Peter Bondanella and Mark Musa especially for this volume. In addition, the editors include an abridged version of The Discourses; a play, The Mandrake Root, in its entirety; seven private letters; and selections from The Art of War and The History of Florence.

Margaret Thatcher's political career was one of the most remarkable of modern times. She rose to become the first woman to lead a major Western democracy, serving as British Prime Minister. Admired by Ronald Regan and the United States Congress, "Introducing Thatcherism" looks at the political philosophy behind this influential and controversial woman.
