Walker reveals how
to sell anything
online, make a

your dreams.

Whether you've

Online Library Launch To

already got a business or you're itching to start one, this book provides the perfect recipe for how to do it. No wonder Brendon Burchard called it 'the most important book ever written on online marketing'. What if you could launch like Apple or

Online Library Launch To

one of the big
Hollywood studios?
What if your
prospects eagerly
counted down the
days until they
could buy your
product? What if
you could create
such powerful
positioning in your
market that you
could all but
eliminate the

Online Library Launch To

competition? And you could do all of that, no matter how humble your business or budget? Since 1996 Jeff Walker has been creating hugely successful online launches. After building his first internet business from his basement, he

Online Library Launch To

quickly developed a process for launching new products and businesses with unprecedented success. Once he started teaching his formula to other entrepreneurs, the results were simply breathtaking.

Launch is the guide

to that world where
digital
entrepreneurs
create amazing

whether you're an

Do you want to sell

readers? Do you
want to discover
how to build an
author career for
the long-term as
well as spike your
book sales right
now? If you don't

Online Library Launch To

know much about marketing, don't worry. We all start with nothing. I'm Joanna Penn and back in 2008, I had no book sales, no audience, no website, no social media, no podcast, no email list. No nothing. Now I'm a New York Times and USA Today

of thrillers and non-
fiction. My books
have sold over
600,000 copies in
162 countries, and
I'm an award-

speaker, making a

income with my
writing. Learning

how to market my
books and my

Yes, you need to
write an awesome
book, but you also
need to know how
to get it in front of
the right readers.
How to Market a
Book is for authors
who want to sell
more books, but

Online Library Launch To

it's also for those writers who want to think like an entrepreneur and build a long-term income. It's for traditionally published authors who want to take control of their future, and for self-published authors who want to jump-start a career.

Online Library Launch To

There are short-term tactics for those who want to boost immediate sales, but the focus of the book is more about instilling values and marketing principles that will help your long-term career as a writer. It's also about going

Online Library Launch To

beyond just the book, because these methods can take you from being an author into making money from other products, professional speaking, and creating opportunities that you can't even imagine yet. In this
