Junk food was definitely not a common item on my menu. I first went to the doctor with IBS-type symptoms when I was 18. I went back again in 2017. My cancer wasn't discovered for another 2 years. So, I believe we need to talk about poo a lot more, so that people like me get a diagnosis much earlier.

Do you want a man in your life? You have the power to get what you want. Let's get your new adventure started. To speak with the author please contact her at help@womenletstalk.com

Particularly relevant in an election year...This book is full of data on the economy, technology, and more that will help millennials articulate their generational rage and help boomers understand where they're coming from. The Washington Post Jill Filipovic cuts through the noise with characteristic clarity and nuance. Behind the meme is a thoughtfully reported book that greatly contributes to our understanding of generational change. Irin Carmon, coauthor of the New York Times bestseller Notorious RBG Baby Boomers are the most prosperous generation in American history, but their kids are screwed. In this eye-opening book, journalist Jill Filipovic breaks down the massive problems facing Millennials including climate, money, housing, and healthcare. In Ok Boomer, Let's Talk, journalist (and Millennial) Jill Filipovic tells the definitive story of her generation. Talking to gig workers, economists, policy makers, and dozens of struggling Millennials drowning in debt on a planet quite literally in flames, Filipovic paints a shocking and nuanced portrait of a generation being left behind: -Millennials are the most educated generation in American history and also the most broke. -Millennials hold just 3 percent of American wealth. When they were the same age, Boomers held 21 percent. -The average older Millennial has \$15,000 in student loan debt. The average Boomer at the same age? Just \$2,300 in today's dollars. -Millennials are paying almost 40 percent more for their first homes than Boomers did. -American families spend twice as much on healthcare now than they did when Boomers were young parents. Filipovic shows that Millennials are not the avocado-toast-eating snowflakes of Boomer outrage fantasies. But they are the first American generation that will do worse than their parents. OK, Boomer isn't just a sarcastic dismissal; it's a recognition that Millennials are in crisis, and that Boomer voters, bankers, and policy makers are responsible. Filipovic goes beyond the meme, upending dated assumptions with revelatory data and revealing portraits of young people delaying adulthood to pay down debt, obsessed with wellness because they can't afford real healthcare, and struggling to hustle in the precarious gig economy. Ok Boomer, Let's Talk is at once an explainer and an extended olive branch that will finally allow these two generations to truly understand each other.

Many parents worry about their child's sleep, and parents of new babies are often exhausted - but there is hope. This realistic, reassuring, and refreshing guide to sleep looks at sleep for both parents and children, and aims to empower and encourage parents to feel calm, confident and compassionate in their parenting. It strikes a balance between prioritising infant and child mental health and attachment, and being compassionate about the reality of raising a family in today's society, with social support and understanding often in short supply. With practical and easily implementable ideas, and clear explanation of the many myths surrounding infant and baby sleep, this gentle and holistic guide is sure to allay many parents fears and help everyone in the family get the rest they need.

I am a story. So are you. So is everyone. Julius Lester says, "I write because our lives are stories. If enough of these stories are told, then perhaps we will begin to see that our lives are the same story. The differences are merely in the details." Now Mr. Lester shares his own story as he explores what makes each of us special. Karen Barbour's dramatic, vibrant paintings speak to the heart of Lester's unique vision, truly a celebration of all of us.

Everybody's talking about Marcy!Chicago's hip new teen TV talk show!and Nancy has tickets to see it live. When host Marcy Robbins grabs the mike and goes on the air there's sure to be plenty of fast talk and shock-filled fireworks. But the biggest surprise of all is directed straight at Marcy: an anonymous threat on her life! Nancy's digging up all the dirt, searching for the single obsession powerful enough to incite a passion for murder!

Through the lens of her hair struggles, Lynn Gauthier takes us on her life's journey: hair salons, hairstylists (some she'd rather forget), and unforgettable hair stories. Gauthier's experiences not only shaped her hair but also brought her astounding insight into the nature of her personal struggle with vanity and the search for perfection. She begins her story with excerpts from her daily journal that led to her epiphany that she had self-image issues, marking the beginning of her recovery from the vanity that had strangled her for years. She recalls seasons of hair changes and relates them to the pathways of an evolving spiritual life, from her early school days through two marriages and finally motherhood. Most every woman alive has a hair story and will relate to Gauthier's stories about hair and our emotional attachment to it.

Striking a perfect balance between heartfelt emotions and spot-on humor, this debut features a pop-culture enthusiast protagonist with an unforgettable voice sure to resonate with readers. Alice had her whole summer planned. Nonstop all-you-can-eat buffets while marathoning her favorite TV shows (best friends totally included) with the smallest dash of adulting working at the library to pay her share of the rent. The only thing missing from her perfect plan? Her girlfriend (who ended things when Alice confessed she's asexual). Alice is done with dating!no thank you, do not pass go, stick a fork in her, done. But then Alice meets Takumi and she can't stop thinking about him or the rom com-grade romance feels she did not ask for (uncertainty, butterflies, and swoons, oh my!). When her blissful summer takes an unexpected turn and Takumi becomes her knight with a shiny library-employee badge (close enough), Alice has to decide if she's willing to risk their friendship for a love that might not be reciprocated or understood. Claire Kann's debut novel Let's Talk About Love, chosen by readers like you for Macmillan's young adult imprint Swoon Reads, gracefully explores the struggle with emerging adulthood and the complicated line between friendship and what it might mean to be something more. Praise for Let's Talk About Love from the Swoon Reads community: "A sweet and beautiful journey about self-discovery and identity!" "Macy Filia, reader on SwoonReads.com "There aren't many novels that have asexual characters and it's something people need more of." "Alice, reader on SwoonReads.com "I want this on my shelf where I can admire it every day." "Kiara, reader on SwoonReads.com

Poetry by Robert Mark Schaeberle, Memoir by Jeanne Schaeberle What does a son do when he hears voices? Withdraw? Or use his sword, poetry to defend himself? How does a mother handle family life and death and work through horrible grief? Mom...Let's Talk offers insight to the power of healing through writing and the sense of chaos revealed in the poetry.
