The Love Story Some of the elements in the love story have changed over time. In the ancient world and during the Middle Ages, love stories did not have happy endings, and they focused on love outside of social and economic status. This was an innovation at that time, because most marriages were arranged and the partners were of the same social class. Beginning in the late Middle Ages and the ...

A collection of short stories of love set in gritty urban environments.

One woman’s journey to find the lost love her grandfather left behind when he fled pre-World War II Europe, and an exploration into family identity, myth, and memory. Years after her grandfather’s death, journalist Sarah Wildman stumbled upon a cache of his letters in a file labeled “Correspondence: Patients A–G.” What she found inside weren’t dry medical histories; instead what was written opened a path into the destroyed world that was her family’s prewar Vienna. One woman’s letters stood out: those from Valy–Valerie Scheffel. Her grandfather’s lover who had remained behind when he fled Europe six months after the Nazis annexed Austria. Valy’s name wasn’t unknown to her–Wildman had once asked her grandmother about a dark-haired young woman whose images she found in an old photo album. “She was your grandfather’s true love,” her grandmother said at the time, and refused any other questions. But now, with the help of the letters, Wildman started to piece together Valy’s story. They revealed a woman desperate to escape and clinging to the memory of a love that defined her years of freedom. Obsessed with Valy’s story, Wildman began a quest that lasted years and spanned continents. She discovered, to her shock, an entire world of other people searching for the same woman. On in the course of discovering Valy’s ultimate fate, she was forced to reexamine the story of her grandfather’s triumphant escape and how this history fit within her own life and in the process, she rescues a life seemingly lost to history.

“Charming. . . . A moving testament to the diversity and depths of love.” –Publishers Weekly You’ll laugh, you’ll cry, you’ll be swept away–in less time than it takes to read this paragraph. Told in voices that are honest, vulnerable, tender, and wise, here are 175 true stories that are each as moving as a lyric poem and convey a universally recognized feeling, all in fewer than one hundred words. There are stories of love found and love lost, and the sometimes rarest of loves, self-love. Stories of romantic love, brotherly love, platonic love. Stories of mothers and daughters, husbands and wives, strangers who dream of what might have been. And the oldest story of all–boy meets girl–their tale ends happily ever after, even though along the way the boy became a girl.

Susanne Wolff isn’t thrilled when she’s sent to save her uncle’s stationery store. Paper Employee Anja instantly dislikes the digital-loving snob who’s her fill-in boss. Thanks to a meddling cat and an armada of origami boats, Susanne discovers how sexy pens, notebooks, and certain stubborn employees can be in this sweet lesbian romance.

The author provides a candid memoir of her twenty-year love affair with alcohol, explaining how and why she became an alcoholic and her struggle to live without an alcoholic crutch.

A curious figure stalks the pages of a distinct subset of mass-market romance novels, aptly called “desert romances.” Aninalistic yet sensitive, dark and attractive, the desert prince or sheikh emanates manliness and raw, sexual power. In the years since September 11, 2001, the sheikh character has steadily risen in popularity in romance novels, even while depictions of Arab masculinity as backward and violent in nature have dominated the cultural landscape. An Imperialist Love Story contributes to the broader conversation about the legacy of orientalist representations of Arabs in Western popular culture. Combining close readings of novels, discursive analysis of blogs and forums, and interviews with authors, Jarmakani explores popular investments in the war on terror by examining the collisions between fantasy and reality in desert romances. Focusing on issues of security, freedom, and liberal multiculturalism, she foregrounds the role that desire plays in contemporary formations of U.S. imperialism. Drawing on transnational feminist theory and cultural studies, An Imperialist Love Story offers a radical reinterpretation of the war on terror, demonstrating romance to be a powerful framework for understanding how it works, and how it perseveres.

The most popular, provocative, and unforgettable essays from the past fifteen years of the New York Times “Modern Love” column—including stories from the anthology series starring Tina Fey, Andy Garcia, Anne Hathaway, Catherine Keener, Dev Patel, and John Slattery A young woman goes through the five stages of ghosting grief. A man’s promising fourth date ends in the emergency room. A female lawyer with bipolar disorder experiences the highs and lows of dating. A widower hesitates about introducing his children to his new girlfriend. A divorcee in her seventies looks back at the beauty and rubble of past relationships. These are just a few of the people who tell their stories in Modern Love, Revised and Updated, featuring dozens of the most memorable essays to run in The New York Times “Modern Love” column since its debut in 2004. Some of the stories are unconventional, while others hit close to home. Some reveal the way technology has changed dating forever; others explore the timeless struggles experienced by anyone who has ever searched for love. But all of the stories are, above everything else, honest. Together, they tell the larger story of how relationships begin, often fail, and—when we’re lucky—endure. Edited by longtime “Modern Love” editor Daniel Jones and featuring a diverse selection of contributors—including Mindy Hung, Trey Ellis, Ann Hood, Deborah Copaken, Terri Cheney, and more—this is the perfect book for anyone who’s loved, lost, stalked an ex on social media, or pined for true romance: In other words, anyone interested in the endlessly complicated workings of the human heart.
