And the robotic alien Spiders who maintain the Quadrail know it—which is why he's going to work for them whether he likes it or not. The Third Lynx: After barely surviving his last mission, Compton just wants to relax with his gorgeous half-human partner, Bayta. But their reverie aboard the Quadrail is broken by a persistent human going on about alien artifacts. Then someone shuts him up permanently, and what begins as a murder leads Compton to uncover a conspiracy that threatens to engulf the

He brusquely shows her the door, only to be accused of her murder the next day. Determined to make things right, he heads to the world of New Tigris to find the little girl. But his adversaries, the mind-enslaving Mohdri, are waiting for him there.
