From the #1 international bestselling author: a woman wakes up on a Central Park bench with no memory of how she got there in this " unpredictable and moving psychological thriller that keeps you holding your breath " (M é tro) Alice, a fierce and respected Parisian cop, wakes up on a Central Park bench with no memory of the night before, handcuffed to a complete stranger—a musician named Gabriel. Disoriented, dazed, and with someone else ' s blood on her shirt, Alice works furiously to reconnect the dots. She remembers clubbing with her friends the night before on the Champs- É lys é es. Gabriel claims he was playing a gig in Dublin. Was she drugged? Kidnapped? Why is the gun in her jacket pocket missing a bullet? And whose blood is on her clothes? Over the next twenty-four hours, Alice and Gabriel race across New York in search of answers, stumbling upon a startling set of clues that point to a terrible adversary from the past. Alice must finally confront her memories of hunting the serial killer who took everything from her—a man she thought was dead, until now. From France's #1 bestselling author, Central Park is a taut and suspenseful thriller that will keep readers riveted until its final shocking twist.

The nine stories in Mike Alberti ' s debut collection shine a sharp light on small-town American life —not the Arcadian small towns of yesteryear, but the old mill towns hanging on after the mill has stopped running, the deserted agricultural communities in the middle of vast industrial farms, places where bad luck has become part of the weather. But even in these blighted, neglected landscapes, the possibility of renewal always presents itself: there is hope for these places and the characters who inhabit them. In these fresh, innovative stories, some people let you down, but some people don ' t.

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana.

Through a series of imaginative approaches to movement and performance, choreographer Deborah Hay presents a profound reflection on the ephemeral nature of the self and the body as the locus of artistic consciousness. Using the same uniquely playful poetics of her revolutionary choreography, she delivers one of the most revealing accounts of what art creation entails and the ways in which the body, the center of our aesthetic knowledge of the world, can be regarded as our most informed teacher. My Body, The Buddhist becomes a way into Hay's choreographic techniques, a gloss on her philosophy of the body (which shares much with Buddhism), and an extraordinary artist's primer. The book is composed of nineteen short chapters ("my body likes to rest," "my body finds energy in surrender," "my body is bored by answers"), each an example of what Susan Foster calls Hay's "daily attentiveness to the body's articulateness."

"Cliff is rare, and is already distinguished as a writer of great substance and power."-Jillie Olsen --

The critically acclaimed author of The Rib King returns with an eagerly anticipated collection of short stories including the title story written exclusively for this volume, that explore relationships in a Black neighborhood over the course from the late 1980s to the eve of Barack Obama's inauguration. The twelve stories in The Last Suspicious Holdout and Other Stories capture powerful and poignant moments in the everyday lives of African American families, friends, and neighbors. Taking place in an unnamed "sliver of Southern suburbia" in the years spanning from the beginning of the Clinton presidency to the eve of Barack Obama's election, each of these exceptional works of short fiction explore how the inequities of our society--in the criminal justice system, education, and healthcare--as well as issues like the "war on drugs"--shape and scar ordinary lives in deeply personal ways. In "False Cognates," a formerly incarcerated attorney struggles with paying raising tuition costs to keep his troubled son in an elite private school. In "There He Go," a young girl whose mother moves them constantly years for stability and clings to a picture of the grandfather she doesn't know, inventing stories of his greatness that contrast with the actual man. In this fearless and at times funny collection, Ladee Hubbard transcends stereotypes to provide a fuller portrait of Black American life and its undercurrents. The characters inhabiting her world present diverse configurations of family--grandmothers and granddaughters who live together as roommates; cousins and uncles who form tight bonds; and fathers who are mainly present. Each is part of a community where daycares and babysitters are never taken for granted; where books and words are revered. The Last Suspicious Holdout and Other Stories mirrors and celebrates Black resilience. Though their finances, jobs, and businesses may be vulnerable to forces they cannot control, the neighbors in these stories bravely confront the realities of their lives, and firmly believe that hope is not a promise but a choice.

Born in 1900 in French West Africa, Malian writer Amadou Hamp à t é B à was one of the towering figures in the literature of twentieth-century Francophone Africa. In Amkoullel, the Fula Boy, B à tells in striking detail the story of his youth, which was set against the aftermath of war between the Fula and Toucouleur peoples and the installation of French colonialism. A master storyteller, B à recounts pivotal moments of his life, and the lives of his powerful and large family, from his first encounter with the white commandant through the torturous imprisonment of his stepfather and to his forced attendance at French school. He also charts a larger story of life prior to and at the height of French colonialism: interethnic conflicts, the clash between colonial schools and Islamic education, and the central role indigenous African intermediaries and interpreters played in the functioning of the colonial administration. Engrossing and novelistic, Amkoullel, the Fula Boy is an unparalleled rendering of an individual and society under transition as they face the upheavals of colonialism.
