Coronavirus | MHAMD - Mental Health Association of Maryland

Crisis Response, Inc. operates 21 psychiatric crisis beds. Crisis beds are not new to Maryland, however, since its inception BCRI has operated with an average length of stay of 8.5 days compared with the historical statewide average of 16.5 days. An average of 900 people per year stay in our residential crisis beds.

This comprehensive, go-to volume features cutting edge discussion of the emergency department management of mental health patients.

Prehospital Behavioral Emergencies and Crisis Response was designed to complement Jones & Bartlett Learning's Continuing Education series. This resource educates readers on the crisis and behavioral health issues of patients in the prehospital environment. Separated into three parts, coverage includes: the acute behavioral crisis, chronic mental health issues, and prehospital response. Prehospital Behavioral Emergencies and Crisis Response simplifies various types of diagnosed mental disorders such as mood,

personality, eating, and sleeping, as well as schizophrenia and psychosis. This is a great resource for continuing education courses and is also appropriate for any basic, intermediate, or paramedic prehospital provider course. Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition.

Beyond Punishment is a comprehensive practical guide to assisting individuals with mental illness who interact with Maryland's criminal justice system. It provides information and critical resources to family members and others concerned about people who are involved with the criminal justice system, whether in jail awaiting trial, in prison serving a sentence or on probation or parole. It also discusses ways to help prevent a mental health crisis from leading to an arrest and subsequent involvement in the criminal justice system, as well as how to get mental health crisis services, including voluntary and involuntary evaluations. Beyond Punishment deals with the mental health and criminal justice systems of Maryland with a focus on Baltimore City and Baltimore County. With permission from NAMI Metropolitan Baltimore, it can also be used as a template for other jurisdictions.

They assess what psychiatry knows about the prediction of violence and the limitations of

laws designed to protect the public.

E. Fuller Torrey's book provides an insider's perspective on the birth of the federal mental health program.

Crisis Services are a continuum of services that are provided to individuals experiencing a psychiatric emergency. The primary goal of these services is to stabilize and improve psychological symptoms of distress and to engage individuals in an appropriate treatment service to address the problem that led to the crisis. Core crisis services include: 23-hour crisis stabilization/observation beds, short term crisis residential services and crisis stabilization, mobile crisis services, 24/7 crisis hotlines, warm lines, psychiatric advance directive statements, and peer crisis services. The research base on the effectiveness of crisis services is growing. There is evidence that crisis stabilization, community-based residential crisis care, and mobile crisis services can divert individuals from unnecessary hospitalizations and ensure the least restrictive treatment option is available to people experiencing behavioral health crises.
