~~Masters of Death: The SS Einsatzgruppen and the Invention ...~~

Masters of Death is Richard Rhodes's chronological account of the Third Reich's Einsatzgruppen (a hand-picked task force) and its death work--the executions of 1.5 million people, Jews and non-Jews--in Russia and Eastern Europe from 1941 through 1943. Rhodes sees these operations (the victims were, almost exclusively, shot) as a ghastly prelude to the subsequent (and much more written-about) horrors of the death camps.

In Masters of Death, Pulitzer Prize-winning author Rhodes gives full weight, for the first time, to the Einsatzgruppen's role in the Holocaust. These "special task forces," organized by Heinrich Himmler to follow the German army as it advanced into eastern Poland and Russia, were the agents of the first phase of the Final Solution.

In Masters of Death, Pulitzer Prize-winning author Rhodes gives full weight, for the first time, to the Einsatzgruppen's role in the Holocaust. These "special task forces," organized by Heinrich Himmler to follow the German army as it advanced into eastern Poland and Russia, were the agents of the first phase of the Final Solution. They murdered more than 1.5 million men, women, and children between 1941 and 1943, often by shooting them into killing pits, as at Babi Yar. These massive crimes have been generally overlooked or underestimated by Holocaust historians, who have focused on the gas chambers. In this painstaking account, Pulitzer Prize-winning author Richard Rhodes profiles the eastern campaign's architects as well as its "ordinary" soldiers and policemen, and helps us understand how such men were conditioned to carry out mass murder. Marshaling a vast array of documents and the testimony of perpetrators and survivors, this book is an essential contribution to our understanding of the Holocaust and World War II.

Uniquely fusing practical advice on writing with his own insights into the craft, Pulitzer Prize-winning author Richard Rhodes constructs beautiful prose about the issues would-be writers are most afraid to articulate: How do I dare write? Where do I begin? What do I do with this story I have to tell that fills and breaks my heart? Rich with personal vignettes about Rhode's sources of inspiration, How to Write is also a memoir of one of the most original and celebrated writers of our day.

"After the war, the German government investigated 1,770 former Einsatzgruppen members and brought 136 of these men to trial. Helmut Langerbein has systematically examined the trial evidence in search of characteristics shared by these mass murderers. Using a much broader data base than earlier studies, Langerbein identifies a number of factors that could explain their actions, illustrating each with a particular person or group of officers." "Given the extent of its data, its detailed analysis and its careful conclusions, Hitler's Death Squads: The Logic of Mass Murder will push historians and psychologists toward a reappraisal of the Nazi killing machine, the behavior of the men behind the battle lines, and the overwhelming power of circumstances."--Jacket.

In June 1941, Adolf Hitler, whose loathing of Slavs and Jewish Bolsheviks knew no bounds, launched Operation Barbarossa, throwing 4 million troops, supported by tanks, artillery and aircraft into the Soviet Union. Operational groups of the German Security Service, SD, followed into the Baltic and the Black Sea areas. Their orders: neutralize elements hostile to Nazi domination. Combined SS and SD headquarters were set up in Riga (northern), Mogilev (middle) and Kiev (southern), each with subordinate units of the SD, the Einsatzgruppen, and lower echelons of Einsatzkommandos.Communist and Soviet NKVD (Peoples Commissariat for Internal Affairs) agents were targeted, and from August 1941 to March 1943, 4,000 Soviet and communist agents were arrested and executed. In addition, far greater numbers of partisans and communists were shot to ensure political and ethnic purity in the occupied territories. Einsatzgruppe A, under Adolf Eichmann, executed 29,000 people listed as Jews or mostly Jews in Latvia and Lithuania in the early stages of the operation. In the Einsatzgruppe C report for September 1941, there is a comment, 50,000 executions foreseen in Kiev. In five months in 1941, Einsatzkommando III commander, Karl Jger, reported killing 138,272 (48,252 men, 55,556 women and 34,464 children).The Einsatzgruppen were death squads their tools the rifle, the pistol and the machine gun. It is estimated that the Einsatzgruppen executed more than 2 million people between 1941 and 1945, including 1.3 million Jews.

In August 1942, Hitler directed all German state institutions to assist Heinrich Himmler, the chief of the SS and the German police, in eradicating armed resistance in the newly occupied territories of Eastern Europe and Russia. The directive for "combating banditry" (Bandenbekämpfung), became the third component of the Nazi regime's three-part strategy for German national security, with genocide (Endlösung der Judenfrage, or "the Final Solution of the Jewish Question") and slave labor (Erfassung, or "Registration of Persons to Hard Labor") being the better-known others. An original and thought-provoking work grounded in extensive research in German archives, Hitler's Bandit Hunters focuses on this counterinsurgency campaign, the anvil of Hitler's crusade for empire. Bandenbekämpfung portrayed insurgents as political and racial bandits, criminalized to a greater degree than enemies of the state; moreover, violence against them was not constrained by the prevailing laws of warfare. Philip Blood explains how German forces embraced the Bandenbekämpfung doctrine, demonstrating the equal culpability of both the SS police forces and the "heroic" Waffen-SS combat arm and shattering the contrived postwar distinctions between them. He challenges the traditional view of Himmler as an armchair general and bureaucrat, exposing him as the driving force behind one of the most successful security campaigns in history, and delves into the contentious issue of the complicity of ordinary German police, soldiers, and citizens, as well as the citizens of occupied territories, in these state-sponsored manhunts. This book provokes new debates on the Nazi terrorization of Europe, the blind acquiescence of many, and the courageous resistance of the few.

They were the soldiers sworn by an oath of loyalty to follow Hitler into a maelstrom of genocidal barbarity. They were the elite of the German military in World War Two. They were the Waffen-SS. On June 22, 1941, before dawn, German troops invaded Russia. The Barbarossa campaign included some of the greatest episodes in military history: it also allowed Hitler's ideological warriors, the Waffen-SS, to give full vent to their ideological way of war. It provided the killing ground in which some of the worst atrocities seen by humanity were committed. In Valhalla's Warriors, author Dr. Terry Goldsworthy, meticulously chronicles what has become one of the most famous fighting elites in World War Two. Discovering the truths behind the legend by drawing on hundreds of sources - including first hand accounts of Waffen-SS veterans - and spanning five years of research Dr. Goldsworthy leads the reader through the events that occurred on the Eastern Front, both on the front lines and behind. This book is an exploration of the Waffen-SS, and by necessity of evil. The Waffen-SS are commonly regarded as the elite of Germany's armed forces during World War II. They gained much of this reputation whilst fighting on the Eastern Front in Russia. Germany's war against the Soviet Union in World War II, in particular the role of the Waffen-SS forms much of the subject matter of this book. The death and destruction during this conflict would result not just from military operations, but also from the systematic killing and abuse that the Waffen-SS directed against Jews, Communists and ordinary citizens. This book provides a clear, concise history of the Waffen-SS campaign of conquest and genocide in Russia by looking at the actions both on and behind the front lines. By drawing on the best of military and Holocaust scholarship, this book dispels the myths that have distorted the role of the Waffen-SS, in both the military operations themselves and the unthinkable crimes that were part of them. The conventional wisdom that the Waffen-SS in World War II fought a relatively clean fight, unscathed by the atrocities committed by the Nazis, is challenged-and largely demolished. Focusing on the Eastern Front, the book contends that the Nazi vision of a racial-ideological death struggle against Slavic hordes and their Jewish-Bolshevik commissars resonated with soldiers of the Waffen-SS, steeped in traditional anti-Semitic and racist dogmas. In doing so this book clearly shows that the Waffen-SS was an organisation that committed widespread atrocities, and were truly soldiers of evil. DR. TERRY GOLDSWORTHY is a Detective Senior Sergeant with over 25 years policing experience in Australia. He has served in general duties, watchhouse and traffic branch before moving to the Criminal Investigation Branch in 1994. Dr. Goldsworthy has completed a Bachelor of Commerce, Bachelor of Laws, Advanced Diploma of Investigative Practice and a Diploma of Policing. As a result of his law studies Dr. Goldsworthy was admitted to the bar in the Queensland and Federal Courts a barrister in 1999. Dr. Goldsworthy then completed a Master of Criminology at Bond University. He later completed his PhD focusing on the concept of evil and its relevance from a criminological and sociological viewpoint. In particular Dr. Goldsworthy looked at the link between evil and armed conflicts using the Waffen-SS as a case study. He has also contributed chapters to the tertiary textbooks Forensic Criminology and Serial Crime, published by Academic Press. He has also written a chapter to the general crime book Crime on My Mind published by New Holland Publishing."

In Nazi Germany, they were called the Schutzstaffeln. The world would know them as the dreaded SS--the most loyal and ruthless enforcers of the Third Reich. It began as a small squad of political thugs. Yet by the end of 1935, the SS had taken control of all police and internal security duties in Germany--ranging from local village "gendarmes" all the way up to the secret political police and the Gestapo. Eventually, its ranks would grow to rival even Germany's regular armed forces, the Wehrmacht. Going beyond the myths and characterizations, Army of Evil reveals the reality of the SS as a cadre of unwavering political fanatics and power-seeking opportunists who slavishly followed an ideology that disdained traditional morality--an ideology that they were prepared to implement to the utmost murderous extreme, which ultimately resulted in the Holocaust. This is a definitive historical narrative of the birth, legacy, and demise of one of the most feared political and military organizations ever known--and of those twisted, cruel men who were responsible for one of the most appalling crimes against humanity in history. INCLUDES RARE PHOTOGRAPHS

When a series of mysteries plague his town, misfit eighteen-year-old Marvin, the wealthy author of teenage fiction under a pseudonym, begins to believe that the tales of horror he has been creating are not fiction after all.

Why do some men, women and even children assault, batter, rape, mutilate and murder? In his stunning new book, the Pulitzer Prize-winner Richard Rhodes provides a startling and persuasive answer. Why They Killexplores the

discoveries of a maverick American criminologist, Dr. Lonnie Athens -- himself the child of a violent family -- which challenge conventional theories about violent behavior. By interviewing violent criminals in prison, Dr. Athens has identified a pattern of social development common to all seriously violent people -- a four-stage process he calls "violentization": -- First, brutalization: A young person is forced by violence or the threat of violence to submit to an aggressive authority figure; he witnesses the violent subjugation of intimates, and the authority figure coaches him to use violence to settle disputes. -- Second, belligerency: The dispirited subject, determined to prevent his further violent subjugation, heeds his coach and resolves to resort to violence. -- Third, violent performances: His violent response to provocation succeeds, and he reads respect and fear in the eyes of others. -- Fourth, virulency: Exultant, he determines from now on to utilize serious violence as a means of dealing with people -- and he bonds with others who believe as he does. Since all four stages must be fully experienced in sequence and completed to produce a violent individual, we see how intervening to interrupt the process can prevent a tragic outcome. Rhodes supports Athens's theory with historical evidence and shows how it explains such violent careers as those of Perry Smith (the killer central to Truman Capote's narrative *In Cold Blood*), Mike Tyson, "preppy rapist" Alex Kelly, and Lee Harvey Oswald. *Why They Kill* challenges with devastating evidence the theory that violent behavior is impulsive, unconsciously motivated and predetermined. It offers compelling insights into the terrible, ongoing dilemma of criminal violence that plagues families, neighborhoods, cities and schools.
