Glencoe Math with Business Applications is a comprehensive text that covers all the skills students need to manage their personal finances and excel at their first jobs and in everyday life. Math with Business Applications is a three-part program that takes students from basic math concepts to sophisticated financial strategies. Basic Math Skills reviews the fundamental math operations, Personal Finance teaches money management skills, and Business Math provides a thorough primer on launching and running a business. Math with Business Applications contains lessons, workshops, features and activities that comprise a well-rounded program. Cumulative Test Prep prepares students to take the Mathematics with Business Applications tests with more success. Math Studio: A Creative Lab features seven hands-on group projects that develop students' reading, writing, communications, and math skills. Practicing Life Skills Lab provides a hands-on approach to applying math in the real world. Living in the Real World takes a single story and weaves it throughout each section of a chapter. Print student edition

This book fits the Business Mathematics course in high schools. It is structured around a three-pronged approach: Basic math review, personal finance and business mathematics. Build and strengthens students' basic skills in personal and business mathematics.

Student Activity Workbook with CD

Mathematics with Business Applications helps you prepare your mathematics students for the world of business.

Miller's name appears first on the earlier editions.
