Magic is everywhere, from the big spectacle celebrity of David Copperfield and Siegfried and Roy to the quirky Penn and Teller to the spooky David Blaine and Criss Angel to the endless material on YouTube. But until now, learning it has never been easy—that's all about to change with *Magic*, a book that does for close-up magic what *How to Grill* does for barbecue. Written by charismatic young magician Joshua Jay, *Magic* combines expertise, photographs, and step-by-

step directions showing how to perform 100 tricks. Joshua Jay took home the top prize at the World Magic Seminar (the Olympics of magic) when he was just 16 years old. Now he continues to perform magic, write about magic, eat, sleep, and breathe magic. Here, he brings all his passion and knowledge to teaching magic. Each trick is broken down into the Effect, the Secret, the Set-up, and, most important, the Performance, with lessons on what to say, how to direct the audience's attention, where to keep your hands, and so on. (In other words, how to be smart about the things your

Here are the Ten Greatest Card Tricks; tricks to dazzle a dinner date; tricks to perform for the boss (poke a hole through his shirt, then magically mend it); tricks especially for kids; and even tricks for an audience in another state—with "Australian Self-Help," you can find a participant's chosen card over the phone. It's the Aha! book for a subject whose time has come.

The Kybalion: A Study of the Hermetic Philosophy of Ancient Egypt and Greece is

a book originally published in 1908 by New Thought author William Walker Atkinson under the pseudonym "The Three Initiates". This book is not exactly The Kybalion itself, it is more of a critical interpretation by Atkinson on hermetic philosophy. As such, it should be read with this in mind that it is not an authoritative hermetic text, but one only dedicated to Hermes Trismegistus. The Kybalion presents seven universal principles it proposes to be the Seven Hermetic Principles: Mentalism, Correspondence, Vibration, Polarity, Rhythm, Cause and Effect, and

Gender. These principles are essentially explications of cycles, and before these principles is the notion of the primacy of mind as the cause of All (philosophical mentalism). This idea of mentalism is inspired by what is written about the Mind in The Hermetica.

Coinciding with Spiritualism, New Thought, and Theosophy, the book became very popular in New Age movements, particularly with its notion of spiritual and mental alchemy. The Kybalion is a text which must be read with this in mind, while it is an interpretation of hermetic philosophy, it is in part

still a relic of its time. Its influence cannot be understated, and the need to read it critically cannot be overstated.

What can magic tell us about ourselves and our daily lives? If you subtly change the subject during an uncomfortable conversation, did you know you're using attentional 'misdirection', a core technique of magic? And if you've ever bought an expensive item you'd sworn never to buy, you were probably unaware that the salesperson was, like an accomplished magician, a master at creating the 'illusion of choice'.
