In a remote Florida lake, a cave collapses, trapping Doc Ford and two of his friends. Ford manages to escape and surfaces to find help-but two ex-cons are waiting for him. They're intent on diving to the bottom of the deep lake and finding the remains of a legendary plane, supposedly loaded with gold. Ford's expertise is just what they need. And if he doesn't help, Ford and his friends are dead in the water.

It all started in the 1970s when my own children were on the threshold of adulthood. The Roving Roo adventures were created around 1989 after a trip to the USA, where my daughter introduced me to a mascot named Kirby Kangaroo. Swaggy Joe became the romantic character of my childhood-when itinerant workers still walked the roads. I have fond memories of some of them, notably an old timer of Bacchus Marsh, Victoria, named Brian Rice, who my Grandma Lyle employed in exchange for food and rudimentary accommodation in the back shed. Another was a chap named Ruben Webb, who my dad gave work to at our home. He worked well and then wandered his way. Great icons of honesty, integrity, and the freedom to live as they would were both of these men and others of their ilk. I recognize that the normal way of life for me as a child has slipped by as prosperity and technology altered what my grandchildren know as their way of life. I felt that it could assist the new generations if they could be given some insights into life as it once was before their time, albeit in romantic tales of the imagination. For me to express this, I found the lyric ballad came naturally to be the utility of sharing. Although untrained as a writer and communicator, the urge to share a little of “what was” or “maybe was” prompted this little booklet. I hope that the readers, those young and those not so, enjoy the unique sharing reading provides.

This charming & beautifully illustrated book is a useful reader for preteen social science discussions. Buster is a puppy who is abandoned after Christmas & becomes homeless. He is saved from the freezing cold by Billa the badger and a beautiful friendship ensues. Key focus points in this book are friendship, charity & kindness.

A Self-Study Grammar Book for Engineers és un llibre d'autoaprenentatge de la llengua anglesa en l'àmbit de les carreres tècniques i, d'una manera especial, per a l'alumnat universitari dins el camp de les enginyeries. Està dividit en tres mòduls ben diferenciats per a facilitar la seva utilització i ordenar les unitats a estudiar en funció de les necessitats específiques de l'alumne en cada moment. En un primer mòdul s'han inclòs 31 unitats de gramàtica i documents específics amb explicacions i exemples bilingües (en català i en castellà), així com exercicis complementaris i les seves solucions respectives. El segon mòdul conté un total de 13 unitats bàsiques, relacionades amb l'anglès per a finalitats específiques: anglès per a la banca i les finances, anglès comercial, anglès per a la producció i el transport, anglès per a la construcció, etc. També en aquest mòdul s'han afegit 6 unitats extres, molt útils com a referència bàsica i sòlida sobre l'anglès americà i l'anglès britànic, friends and false friends, phrasal verbs i opposites. En el tercer i últim mòdul d'aquest llibre hi ha un apèndix amb material essencial per a l'aprenent avançat de la llengua anglesa, com per exemple: abreviacions típiques angleses, taules de conversió i càlcul, els verbs irregulars anglesos traduïts al català i al castellà, el sistema de puntuació anglès, un quadre sinòptic dels temps verbals en anglès, etc. Al final del llibre s'hi pot trobar la bibliografia i una sèrie de webs i enllaços recomanats per ambdues autores per tal de facilitar el procés d'aprenentatge de l'alumne en l'anglès com a llengua estrangera i per a finalitats específiques.
