With the proliferation of information on the World Wide Web and in other networked environments, one of the main things that users search for are images of works of art and architecture. End-users generally try to search for images by subject, a process that often proves

Where To Download Murano 2010 Owners Guide

unsatisfactory and frustrating.

Cataloging images of works of art has always been challenging, but now that end-users need only have access to the Internet, the challenge is more daunting than ever. This illustrated book on using metadata standards and controlled vocabularies to catalog
