When it comes to writing a text for non-music majors, Kamien knows the score. With the care you would expect from the concert pianist he is, Kamien introduces the musical elements and repertoire thoroughly and clearly, without assumptions of prior knowledge but also without condescension. As a teacher at Queens (NY) College, Kamien developed the concept of the Listening Outline, which he incorporated into the first edition of this book and which he has refined and enhanced in every subsequent edition. This is a text with which students of all levels and backgrounds can feel comfortable.

The Study Guide and Student Workbook by Susan Lindahl includes Self-Tests, Research Projects, Listening Exercises, Concert Report Guidelines, and Suggestions for Using the Material on the Online Learning Center.

Whether from a concert stage or in front of a classroom, Roger Kamien knows how to connect with an audience. It is his unique combination of a performer's musical sensibility and a teacher's understanding of what works with students that has made *Music: An Appreciation* the most widely-used text of its kind. The text's impeccable scholarship, clear presentation of musical elements and history, carefully chosen repertoire of musical selections, and insightful listening guides have been its hallmarks from the first edition. The revision adds a new text feature designed to help students connect their classroom experience to a wider listening world, and an exciting new online component.
