Simple psychoeducational strategies to keep clients on track during and in-between sessions. Clients go to therapy wanting to change, but often they have no inherent knowledge of how to change. It ' s up to the therapist to build a well-stocked toolkit of life skills and psychoeducational strategies. This book answers the call, delivering an array of basic " solutions " —in the form of handouts, worksheets, exercises, quizzes, mini-lessons, and visualizations—to use with your clients and tailor to fit their needs. No matter your preferred course of therapy—whether it ' s CBT, DBT, EMDR, or EFT—having at your disposal a variety of easy-to-learn and easy-to-teach techniques for a host of common therapy issues goes a long way in keeping your clients on track, both during and in between sessions. Each chapter offers loads of skill-building tips and techniques to teach your clients, followed by practical take-aways for in-between sessions and additional recommended resources that they can turn to (websites, books, videos, and social media). Topics covered include: • stress Solutions • anxiety Solutions • depression Solutions • anger Solutions • conflict Solutions • regret Solutions • low Self-Esteem Solutions • life-imbalance Solutions, and more. This book is one-stop shopping for a variety of simple, practical, educational techniques to help your clients make longstanding life changes.

Improve your understanding of the cardiopulmonary system with Essentials of Cardiopulmonary Physical Therapy, 5th Edition. Based on American Physical Therapy Association best practices, this new edition provides comprehensive coverage of anatomy, physiology, and cardiopulmonary assessment, along with new chapters on the growing topics of the management of cardiovascular disease in women and pulmonary vascular disease. Using a practical approach, expert author Ellen Hillegass also discusses pathophysiology, pharmacology, and interventions in the outpatient setting. Evidence-based content reflects the latest research in the field and incorporates the use of ICF. Material uses best practices defined by the American Physical Therapy Association. Clinical tips provide real-world hints and suggestions from practicing clinicians. UPDATED! Content and references throughout present the most current and relevant information for today ' s clinical practice. NEW! Two additional chapters on Management of Cardiovascular Disease in Women and Pulmonary Vascular Disease provide comprehensive coverage of these key topics. NEW! Enhanced ebook version of the text — included with print purchase — offers access to all of the text, figures, and references from the book, as well as additional case studies and a glossary, on a variety of digital devices.

Firmly established as a comprehensive introduction to the topic, this revised 5th edition provides a wide-ranging outline of the major instructional and training concepts and their relationship to training in practice. The authors have expanded on information relating to the training environment, equipment, strategies, and target population, and have included a completely new section on ethics. Written with the newcomer to the training function in mind, it provides numerous real-life case studies to illustrate the theory. This book is as valuable to those who want to put their training experience into a coherent context as it is to managers who need to understand the role that training can play.

Master neurology with the help of Jack Nolte, PhD, recognized for his skill in communicating complicated neuroscience concepts. This book ' s clear narrative style and review questions allow you to test and verify your knowledge. The short length, full-color illustrations, and brain images make learning quick and easy.
