File Type PDF Nato Documents

The cyber security of vital infrastructure and services has become a major concern

File Type PDF Nato Documents

for countries worldwide. The members of NATO are no exception, and they share a responsibility to help the global community to strengthen its cyber defenses against malicious cyber activity. This book

File Type PDF Nato Documents

presents 10 papers and 21 specific findings from the NATO Advanced Research Workshop (ARW) 'Best Practices in Computer Network Defense (CND): Incident Detection and Response, held in Geneva,

File Type PDF Nato Documents

Switzerland, in September 2013. The workshop was attended by a multi-disciplinary team of experts from 16 countries and three international institutions. The book identifies the state-of-the-art tools and

File Type PDF Nato Documents

processes being used for cyber defense and highlights gaps in the technology. It presents the best practice of industry and government for incident detection and response and examines indicators and metrics for

File Type PDF Nato Documents

progress along the security continuum. This book provides those operators and decision makers whose work it is to strengthen the cyber defenses of the global community with genuine tools and expert advice. Keeping

File Type PDF Nato Documents

pace and deploying advanced process or technology is only possible when you know what is available. This book shows what is possible and available today for computer network defense and for incident detection and

File Type PDF Nato Documents

response.

This book examines NATO's engagement with gender issues through its military structures. Drawing on newly

File Type PDF Nato Documents

declassified NATO documents, this volume provides the first comprehensive account of NATO's long-established engagement with gender issues. These documents bring to the fore the stories of the NATO women

File Type PDF Nato Documents

and 'gendermen' who have organised within NATO across the decades to advocate on gender issues and highlights the continued challenges to pursuing transformative agendas within resistant institutions. The book

File Type PDF Nato Documents

argues that NATO is an institution of international hegemonic masculinity, with gender norms and values learned by member and partner states through socialisation and the engagement of a masculinist

File Type PDF Nato Documents

protection logic. It therefore provides an important context for NATO's recent implementation of the Women, Peace and Security agenda encapsulated in UN Security Council Resolution 1325 and the seven follow-up

File Type PDF Nato Documents

resolutions. The volume interrogates how Women, Peace and Security has mapped on to NATO's pre-existing concerns as a global security actor, providing impetus for further critical knowledge

File Type PDF Nato Documents

building of NATO which centres on gender. This book will be of interest to students and scholars of NATO, Critical Military Studies, Gender Studies, Critical Security Studies and IR in general.
