Nelson Thornes International Primary Science has been written specifically for primary schools teaching a UK based curriculum. Written with an international focus it is designed for primary pupils from a range of backgrounds to prepare them for studying science at secondary level.

This workbook has been created specifically for primary schools teaching a UK based curriculum. Written with an international focus, it is designed for primary pupils from a range of backgrounds to prepare them for studying science at secondary level.

Collins Primary Science fully meets the requirements of the Cambridge Assessment International Education Primary Science Curriculum Framework and the material has been carefully developed to meet the needs of primary science students and teachers in a range of international contexts. Content is organised according to the three main strands: Biology, Chemistry and Physics and the skills detailed under the Scientific Enquiry strand are introduced and taught in the context of those areas.

For each of Stages 1 to 6 as detailed in the Cambridge Primary Science Framework, we offer: * A full colour, highly illustrated and photograph rich Student's Book * A write-in Workbook linked to the Student's Book. Provides support as part of a set of resources for the Cambridge Primary curriculum framework from 2011. This title is endorsed by Cambridge Assessment International Education. * This comprehensive Teacher's Guide with clear suggestions for using the materials, including the electronic components of the course * A DVD-ROM which contains slideshows, video clips, additional photographs and interactive activities for use in the classroom.
