The Isles : Norman Davies : 9780195148312

The Isles: A History is a 1999 narrative history book by Norman Davies. Content [edit] As in his earlier Europe: A History (1996), Davies is not trying to present any new history, but does want to tackle what he sees as historiographical biases in the treatment of the history of Britain and Ireland.

The Isles: A History - Wikipedia

Norman Davies. Written by one of the most brilliant and provocative historians at work today, The Isles is a revolutionary narrative history that takes a new perspective on the development of Britain and Ireland, looking at them not as self-contained islands, but as an inextricable part of Europe. At every stage, The Isles connects offshore development with parallel events on the Continent.

The Isles: A History | Norman Davies | download

Norman Davies, born in 1939 in Bolton (Lancashire) was educated at Bolton School, Magdalen College, Oxford, the University of Sussex and at several continental universities including Grenoble, Perugia and Kraków. His formative years created a lifelong European outlook.

Reviews - Norman Davies official website | Norman Davies ...

In this remarkable work, renowned historian Professor Norman Davies draws from years of meticulous research to recount the compelling story of the Polish II Corps or "Anders Army", and their exceptional journey from the Gulag of Siberia through Iran, the Middle East, and North Africa to the battlefields of Italy to fight shoulder-to-shoulder with Allied forces.

A history of the British Isles in the light of parallel events on the Continent. Challenges the traditional picture of Britain and provides the view of the Isles being constantly buffeted by continental storms and being transformed by them. Culminates with the crisis confronting Britain in the face of the European Union.

The bestselling and controversial new history of the 'British Isles', including Ireland from the author of Europe: A History. Emphasizing our long-standing European connections and positing a possible break-up of the United Kingdom, this is agenda-setting work is destined to become a classic. 'If

An evocative account of fourteen European kingdoms-their rise, maturity, and eventual disappearance. There is something profoundly romantic about lost civilizations. Europe's past is littered with states and kingdoms, large and small, that are scarcely remembered today, and while their names may be unfamiliar-Aragon, Etruria, the Kingdom of the Two Burgundies-their stories should change our mental map of the past. We come across forgotten characters and famous ones-King Arthur and Macbeth, Napoleon and Queen Victoria, right up to Stalin and Gorbachev-and discover how faulty memory can be, and how much we can glean from these lost empires. Davies peers through the cracks in the mainstream accounts of modern-day states to dazzle us with extraordinary stories of barely remembered pasts, and of the traces they left behind. This is Norman Davies at his best: sweeping narrative history packed with unexpected insights. Vanished Kingdoms will appeal to all fans of unconventional and thought-provoking history, from readers of Niall Ferguson to Jared Diamond.

'He writes history like nobody else. He thinks like nobody else ... He sees the world as a whole, with its limitless fund of stories' Bryan Appleyard, Sunday Times Where have the people in any particular place actually come from? What are the historical complexities in any particular place? This evocative historical journey around the world shows us. 'Human history is a tale not just of constant change but equally of perpetual locomotion', writes Norman Davies. Throughout the ages, men and women have endlessly sought the greener side of the hill. Their migrations, collisions, conquests and interactions have given rise to the spectacular profusion of cultures, races, languages and politics that now proliferates on every continent. This incessant restlessness inspired Davies's own. After decades of writing about European history, and like Tennyson's ageing Ulysses longing for one last adventure, he embarked upon an extended journey that took him right round the world to a score of hitherto unfamiliar countries. His aims were to test his powers of observation and to revel in the exotic, but equally to encounter history in a new way. Beneath Another Sky is partly a historian's travelogue, partly a highly engaging exploration of events and personalities that have fashioned today's world - and entirely sui generis. Davies's circumnavigation takes him to Baku, the Emirates, India, Malaysia, Mauritius, Tasmania, Tahiti, Texas, Madeira and many places in between. At every stop, he not only describes the current scene but also excavates the layers of accumulated experience that underpin the present. He tramps round ancient temples and weird museums, summarises the complexity of Indian castes, Austronesian languages and Pacific explorations, delves into the fate of indigenous peoples and of a missing Malaysian airliner, reflects on cultural conflict in Cornwall, uncovers the Nazi origins of Frankfurt airport and lectures on imperialism in a desert oasis. 'Everything has its history', he writes, 'including the history of finding one's way or of getting lost.' The personality of the author comes across strongly - wry, romantic, occasionally grumpy, but with an endless curiosity and appetite for knowledge. As always, Norman Davies watches the historical horizon as well as what is close at hand, and brilliantly complicates our view of the past.

THE CLASSIC HISTORY OF BRITAIN, FULLY UPDATED Roy Strong has written an exemplary introduction to the history of Britain, as first designated by the Romans. It is a brilliant and balanced account of successive ages bound together by a compelling narrative which answers the questions: 'Where do we come from?' and 'Where are we going?' Beginning with the earliest recorded Celtic times, and ending with the present day of Brexit Britain, it is a remarkable achievement. With his passion, enthusiasm and wide-ranging knowledge, he is the ideal narrator. His book should be read by anyone, anywhere, who cares about Britain's national past, national identity and national prospects.

From the celebrated historian and author of *Europe: A History*, a new life of George II George II, King of Great Britain and Ireland and Elector of Hanover, came to Britain for the first time when he was thirty-one. He had a terrible relationship with his father, George I, which was later paralleled by his relationship to his own son. He was short-tempered and uncultivated, but in his twenty-three-year reign he presided over a great flourishing in his adoptive country - economic, military and cultural - all described with characteristic wit and elegance by Norman Davies. (George II so admired the Hallelujah chorus in Handel's *Messiah* that he stood while it was being performed - as modern audiences still do.) Much of his attention remained in Hanover and on continental politics, as a result of which he was the last British monarch to lead his troops into battle, at Dettingen in 1744.

One of the world's leading historians re-examines World War II and its outcome A clear-eyed reappraisal of World War II that offers new insight by reevaluating well-established facts and pointing out lesser-known ones, *No Simple Victory* asks readers to reconsider what they know about the war, and how that knowledge might be biased or incorrect. Norman Davies poses simple questions that have unexpected answers: Can you name the five biggest battles of the war? What were the main political ideologies that were contending for supremacy? The answers to these questions will surprise even those who feel that they are experts on the subject. Davies has established himself as a preeminent scholar of World War II. *No Simple Victory* is an invaluable contribution to twentieth-century history and an illuminating portrait of a conflict that continues to provoke debate.

Surprisingly little known, the Polish-Soviet War of 1919-20 was to change the course of twentieth-century history. In *White Eagle, Red Star*, Norman Davies gives a full account of the War, with its dramatic climax in August 1920 when the Red Army - sure of victory and pledged to carry the Revolution across Europe to 'water our horses on the Rhine' - was crushed by a devastating Polish attack. Since known as the 'miracle on the Vistula', it remains one of the most decisive battles of the Western world. Drawing on both Polish and Russian sources, Norman Davies illustrates the narrative with documentary material which hitherto has not been readily available and shows how the War was far more an 'episode' in East European affairs, but largely determined the course of European history for the next twenty years or more.

From the ice age to the Cold War, from Reykjavik to the Volga, from Minos to Margaret Thatcher, Norman Davies here tells the entire history of Europe in one single volume. The narrative zooms in from the distant focus of Chapter One, which explores the first five million years of the continent's development, to the close focus of the last two chapters, which cover the twentieth century at roughly one page per year. In between, Norman Davies presents a vast canvas packed with startling detail and thoughtful analysis. Alongside Europe's better-known stories - human, national and international - he examines subjects often spurned or neglected - Europe's stateless nations, for example, as well as the nation-states and great powers, and the minority groups from heretics and lepers to Romanies, Jews, and Muslims. He reveals not only the rich diversity of Europe's past but also the numerous prisms through which it can be viewed.
