dimension and approach to combating procrastination. Procrastination is now known to be a device people resort to in order to deal with the worry that comes with taking on new responsibility or finishing old task. This show that it is not genetic but a strategy we adopt to avoid doing things we are uncomfortable with. In the book, Neil tries to change people orientation about starting a new task, completing an abandoned project, fear of failing at a task etc via an approach he calls ten tools. One can easily incorporate these tools in his normal routine. They are easy to follow, and implement.
