Inleiding tot de taken, bevoegdheden en werkwijzen van de ondernemingsraad.

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Many people grimace at the sound of music theory. It can conjure up bad memories of grade school music classes, rattle the brains of college students, and make self-taught musicians feel self-defeated. Music Theory may seem tedious and unnecessary, especially since not many people can read music. Luckily, Music Theory for Dummies shows you the fun and easy way to understanding the concepts needed to compose, deconstruct, and comprehend music. This helpful guide will give you a great grasp of: Note value and counting notes Treble and bass clefs Time signatures and measures Naturalizing the rhythm Tempo and dynamic Tone, color, and harmonics Half steps and whole steps Harmonic and melodic intervals Key signatures and circles of fifths Scales, chords, and their progressions Elements of form Music theory ' s fascinating history This friendly guide not only explores these concepts, it provides examples of music to compliment them so you can hear how they sound firsthand. With a bonus CD that demonstrates these ideas with musical excerpts on guitar and piano, this hands-on resource will prove to you that music theory is as enjoyable as it is useful. Don ' t get discouraged by the seemingly complicated written structure. With Music Theory for Dummies, understanding music has never been easier! Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

Learn about the human body from the inside out Every year, more than 100,000 degrees are completed in biology or biomedical sciences. Anatomy and physiology classes are required for these majors and others such as life sciences and chemistry, and also for students on a pre-med track. These classes also serve as valuable electives because of the importance and relevance of this subject's content. Anatomy and Physiology For Dummies, 2nd Edition, appeals to students and life-learners alike, as a course supplement or simply as a guide to this intriguing field of science. With 25 percent new and revised content, including updated examples and references throughout, readers of the new edition will come to understand the meanings of terms in anatomy and physiology, get to know the body's anatomical structures, and gain insight into how the structures and systems function in sickness and health. New examples, references, and case studies Updated information on how systems function in illness and in health Newest health discoveries and insights into how the body works Written in plain English and packed with dozens of beautiful illustrations, Anatomy & Physiology For Dummies is your guide to a fantastic voyage of the human body.

How to reduce stress, anxiety, high blood pressure, and even chronic pain-by refocusing your mind A cutting-edge meditation therapy that uses self-control techniques, mindfulness has taken off across the globe as a way of overcoming negative thoughts and emotions and achieving a calmer, more focused state of mind. Written by a professional mindfulness trainer, this practical guide covers the key self-control techniques designed to help you achieve a more focused and contented state of mind, while maximizing the health benefits of mindfulness—from reducing stress, anxiety, and high blood pressure to overcoming depression and low self-esteem and battling chronic pain and insomnia. Includes self-control techniques (such as body posture, sitting practice and breathing exercises) and routines Includes an audio CD featuring narrated meditations and exercises Introducing you to a new and powerful form of meditation therapy, Mindfulness For Dummies outlines how to use it in your everyday life to achieve a new level of self-awareness and self-understanding and reap the long-term rewards of better health. Note: CD files are available to download when buying the eBook version

“ Offers practical guidance for how to work with diverse others, which is a precondition for confronting many of the complex challenges we face. ” —Morris Rosenberg, President, Pierre Elliott Trudeau Foundation Collaboration is increasingly difficult and increasingly necessary. Often, to get something done that really matters to us, we need to work with people we don ’ t agree with or like or trust. Adam Kahane has faced this challenge many times, working on big issues like democracy and jobs and climate change and on everyday issues in organizations and families. He has learned that our conventional understanding of collaboration—that it requires a harmonious team that agrees on where it ’ s going, how it ’ s going to get there, and who needs to do what—is wrong. Instead, we need a new approach to collaboration that embraces discord, experimentation, and genuine cocreation—which is exactly what Kahane provides in this groundbreaking and timely book. “ Kahane shows that people who don ’ t see eye-to-eye really can come together to solve big challenges. Whether in our businesses, our governments, our communities, or our personal lives, we can all benefit from this smart and timely book. ” —Mark Tercek, former President, The Nature Conservancy and coauthor of Nature ’ s Fortune “ Shows us how thinking and seeing differently can help us navigate this challenging landscape. Kahane abandons orthodoxy in taking on the most intransigent problems, showing us the path to effective action in a complex world. ” —James Gimian, coauthor of The Rules of Victory “ Collaborating with the Enemy belongs on the same shelf as Sun Tzu ’ s The Art of War and Machiavelli ’ s The Prince. ” —Stephen Huddart, President, The J.W. McConnell Family Foundation
