Our choices seal our fate. Hannah Reed is about to learn just how important one little decision can be. Hannah's plans for a nice, quiet senior year of high school are rapidly disintegrating. It all starts when she innocently bursts in on Ethan Flynn in the change room of the clothing store where she works. Ethan's presence in Hannah's world is subtle but constant, and when he saves her life, they become linked by the workings of an ancient society and Ethan's sworn duty to protect Hannah. Working together to figure out what destiny wants with Hannah, the two of them stumble on a baffling mystery that leaves even Ethan questioning what is in store for her future. With Ethan's help, Hannah learns there is far more to this life, to her life, than she ever realized. As they attempt to untangle Hannah's unique past and emerging abilities, an unknown danger from Ethan's past looms ever closer. While racing to put together the pieces of the puzzle before it's too late, Hannah wrestles with the idea that she is anything but average, and that perhaps she is also more to Ethan than just a job. Heio is the first book in the series with the same name. A story of destiny and how one decision can change everything. When you buy a copy of Heio, your one decision also has the ability to change the lives of others across the globe. \$3.00CAD from every copy of Heio purchased goes towards the amazing efforts of the Because I am a Girl Education initiative. Fighting to bring literacy and safe learning resources to girls living in some of the poorest nations in this world.

The Mises Institute is thrilled to bring back this popular guide to ridiculous economic policy from the ancient world to modern times. This outstanding history illustrates the utter futility of fighting the market process through legislation. It always uses despotic measures to yield socially catastrophic results. It covers the ancient world, the Roman Republic and Empire, Medieval Europe, the first centuries of the U.S. and Canada, the French Revolution, the 19th century, World Wars I and II, the Nazis, the Soviets, postwar rent control, and the 1970s. It also includes a very helpful conclusion spelling out the theory of wage and price controls. This book is a treasure, and super entertaining!

From the bestselling author of Practical Magic comes an essential guide to cultivating magical self-sufficiency and enchanted resilience through spell work, gardening, herbal remedies, and more. Whether we live on a farm or in a high rise, we can always create a life that is entwined with the natural world. A homestead is not a log cabin or a hermitage out in the woods -- it is a way of being, a life lived with the intention of returning to our roots and tapping into the essential elements of fire, water, air, and earth. And a homesteading witch isn't just a person who lives atop a beautiful mountain, but anyone who understands that by harnessing and honoring these elements you can create whatever it is that you need. The Witchy Homestead is your guide to finding, creating, and living this essential magic -- it is a comforting companion as you build a wellspring of magical self-sufficiency, and a seasoned teacher as you cultivate enchanted resilience. Through this book, author Nikki Van De Car will offer magically-tinged suggestions for growing or finding your own food regardless of where you live, engaging in natural healing practices, connecting to the ancient magic of the world around you, and for protecting all that you have created.

Students of all ages can learn to think like artists! Studio Thinking: The Real Benefits of Visual Arts Education changed the conversation about quality arts education. Now, a decade later, this new publication shows how the eight Studio Habits of Mind and four Studio Structures can be used successfully with younger students in a range of socioeconomic contexts and school environments. Book Features: habit-by-habit definitions, classroom examples, and related visual artist exemplars emphasizing contemporary artists; full colour mini-posters teachers can hang in their classrooms to illustrate each of the eight Studio Habits of the Mind; sample templates for students to use as they plan, reflect upon, and talk about works of art; innovative approaches to assessment and strategies for implementation.

Jacek Lidwin presents "Unknown People", a book containing 126 black and white street portraits. This book highlights provoking and contemporary examples of the medium of portraiture. Jacek is trying to express his perspective on individuals, unknown people who he meets in the streets of Poland. His art illustrates Osho's words: "We are born alone, we live alone and we die alone. Aloneness is our very nature but we are not aware of it". He is inspired by street photography of Robert Frank, Henri Cartier-Bresson, Robert Doisneau.
