Normal isn't anything more than a setting on the washing machine.... When Sophie was born, she was a beautiful, happy, normal baby girl. There was nothing different about her at all. In fact, the pediatrician mentioned how social she was. However, between Sophie's first and second birthdays, things began to change. Her language stopped developing; she was hardly speaking at all. She didn't seem to notice when someone entered a room. She no longer wanted to play with her friends. Something was different about Sophie, but no one could tell us exactly what it was. Though she seemed to have symptoms of autism, there were no conclusive answers. Could it be sensory integration disorder? Perhaps selective mutism? This is Sophie's story; the story of how a little girl overcame her inability to speak and understand

language. It is the true story of my very own precious, amazing daughter and how living with autism has effected each of us. It is compromised mainly of my own blog posts, written as the story unfolded, with details and updates woven in. You will walk along with us and feel our heartache through the pitfalls and rejoice with us through the triumphs. Sophie's story is a beacon of light for other families traversing a similar path. Regardless of where your family might be along this journey, Sophie will inspire you to keep reaching for the light.

green belt (CSSGB). And also licensed in NY as an RN and as an ANP.

Tele-AAC: Augmentative and Alternative Communication Through Telepractice is the first comprehensive resource guide to Tele-AAC. Tele-AAC is the use of telepractice specifically for providing services to individuals using augmentative and alternative communication (AAC). This text establishes Tele-AAC as a new service delivery model and promotes safe, efficacious, evidence-based, and ethical telepractice for individuals who need AAC systems. The goal is to provide readers with fundamental information about policy and service delivery of AAC services via telepractice to enable clinical practice. The text details the specific technical components unique to Tele-AAC service delivery, and how the technology, personnel, and service delivery practices may vary across settings and populations. It offers didactic and case-based content for speech-language pathologists across all levels, from introductory to advanced. Chapters are included that clarify and define the term Tele-AAC, highlight the procedures used while providing assessment and intervention via Tele-AAC, identify ethical and cultural considerations while providing Tele-AAC, and demonstrate its application in a variety of settings. The content has been enriched by the input and knowledge offered by leaders from both telepractice and AAC disciplines, and offers readers the right combination of foundational information and principles to help form a base of understanding for practitioners engaging in Tele-AAC. The field of Tele-AAC is evolving and will transform as the technology

changes and advances. This text provides a threshold of understanding from which the field and practitioners can grow.

PALS Certification Exam Q&A With Explanations will certainly help you pass any Pediatric Advanced Life Support Certification Course. As you look through the book, you will quickly see that this book's format is different from all other review and test preparation books. This book is specifically geared toward healthcare students and new healthcare professionals that are preparing to take the PALS certification exam for the first time. This book will also give the seasoned healthcare professional lots of great review information as well as a way to update themselves on the latest research and guidelines. Whichever certifying agency's program you are taking, either in a classroom or on the internet, this book and its contents will help you succeed in this course. In this book we give you all the essential information that you will need to successfully pass the certification course and exam on your first attempt. Joe and I have been teaching this course to healthcare professionals and students since 1984. We know what works and what doesn't when it comes to helping our students be successful. We had to develop almost all of the study materials for our students by ourselves because very little existed at the time. The Zombie Notes Study Charts were some of the first study aids we developed to help our students learn a large amount of information very quickly. We know that this format works very well because hundreds of thousands of

professionals currently enrolled in a Pediatric Advanced Life Support Certification or Recertification Course. It serves as the primary training material for PALS Certification and Recertification courses. Although it is primarily intended for use during certification courses, the handbook was also created to serve as daily reference material for health care professionals. Information covered in the handbook includes EKG and electrical therapy review, pediatric respiratory failure and more. Specific PALS Algorithms and more are also included within the handbook. All material included in this handbook is delivered in a manner meant to enhance learning in the most comprehensive and convenient way possible.
