A timely collection of deeply personal, uplifting, and powerful essays that celebrate the redemptive strength of Black joy—in the vein of Black Girls Rock, You Are Your Best Thing, and I Really Needed This Today. When Tracey M. Lewis-Giggetts wrote an essay on Black joy for The Washington Post, she had no idea just how deeply it would resonate. But the outpouring of responses affirmed her own lived experience: that Black joy is not just a weapon of resistance, it is a tool for resilience. With this book, Tracey aims to gift her community with a collection of lyrical essays about the way joy has evolved, even in the midst of trauma, in her own life. Detailing these instances of joy in the context of Black culture allows us to recognize the power of Black joy as a resource to draw upon, and to challenge the one-note narratives of Black life as solely comprised of trauma and hardship. Black Joy is a collection that will recharge you. It is the kind of book that is passed between friends and offers both challenge and comfort at the end of a long day. It is an answer for anyone who needs confirmation that they are not alone and a brave place to quiet their mind and heal their soul.

Access to oral health care is essential to promoting and maintaining overall health and well-being, yet only half of the population visits a dentist each year. Poor and minority children are less likely to have access to oral health care than are their nonpoor and nonminority peers. Older adults, people who live in rural areas, and disabled individuals, uniformly confront access barriers, regardless of their financial resources. The consequences of these disparities in access to oral health care can lead to a number of conditions including malnutrition, childhood speech problems, infections, diabetes, heart disease, and premature births. *Improving Access to Oral Health Care for Vulnerable and Underserved Populations* examines the scope and consequences of inadequate access to oral health services in the United States and recommends ways to combat the economic, structural, geographic, and cultural factors that prevent access to regular, quality care. The report suggests changing funding and reimbursement for dental care; expanding the oral health work force by training doctors, nurses, and other nondental professionals to recognize risk for oral diseases; and revamping regulatory, educational, and administrative practices. It also recommends changes to incorporate oral health care into overall health care. These recommendations support the creation of a diverse workforce that is competent, compensated, and authorized to serve vulnerable and underserved populations across the life cycle. The recommendations provided in *Improving Access to Oral Health Care for Vulnerable and Underserved Populations* will help direct the efforts of federal, state, and local government agencies; policy makers; health professionals in all fields; private and public health organizations; licensing and accreditation bodies; educational institutions; health care researchers; and philanthropic and advocacy organizations.
