Named one of the Best Romance of 2020 by EW, Washington Post, NPR, and Bookpage! Meet the SOCIETY OF SIRENS—three radical, libertine ladies determined to weaponize their scandalous reputations to fight for justice and the love they deserve... She's a Rakes on a quest for women's rights... Seraphina Arden's passions include equality, amorous affairs, and wild, wine-soaked nights. To raise funds for her cause, she's set to publish explosive memoirs exposing the powerful man who ruined her. Her ideals are her purpose, her friends are her family, and her paramours are forbidden to linger in the morning. He's not looking for a summer lover... Adam Anderson is a wholesome, handsome, widowed Scottish architect, with two young children, a business to protect, and an aversion to scandal. He could never, ever afford to fall for Seraphina. But her indecent proposal—one month, no strings, no future—proves too tempting for a man who strains to keep his passions buried with the losses of his past. But one night changes everything... What began as a fling soon forces them to confront painful secrets—and yearnings they thought they'd never have again. But when Seraphina discovers Adam's future depends on the man she's about to destroy, she must decide what to protect... her desire for justice, or her heart.

This fully revised and updated second edition of *Understanding Digital Libraries* focuses on the challenges faced by both librarians and computer scientists in a field that has been dramatically altered by the growth of the Web. At every turn, the goal is practical: to show you how things you might need to do are already being done, or how they can be done. The first part of the book is devoted to technology and examines issues such as varying media requirements, indexing and classification, networks and distribution, and presentation. The second part of the book is concerned with the human contexts in which digital libraries function. Here you'll find specific and useful information on usability, preservation, scientific applications, and thorny legal and economic questions. Thoroughly updated and expanded from original edition to include recent research, case studies and new technologies For librarians and technologists alike, this book provides a thorough introduction to the interdisciplinary science of digital libraries Written by Michael Lesk, a legend in computer science and a leading figure in the digital library field Provides insights into the integration of both the technical and non-technical aspects of digital libraries

New York Times bestselling author Rachel Gibson returns with this dazzling love story filled with sizzle, sass, and just a bit of southern charm . . . "Hello, Ms. Vivian .

. . it's been a long time." And with those words, Vivian Leigh Rochet nearly melted. It's been years since she last saw Harrison Whitley-Shuler. She was a teenager scrubbing houses for a living. He was the gorgeous son of rich parents, not fit for the likes of her. Vivian had vowed to get out of Charleston, become a big Hollywood star, and stick it to the snooty girls who made her cry. She got what she wanted—and more—but why does her glamorous life seem so trivial? Harrison got out too . . . making it all the way to Wall Street, until a heart attack forced him to trade in his cufflinks for a good set of hand tools. Making furniture soothes his soul, but escaping the Whitley-Shuler heritage is nearly impossible. And now he's come face-to-face with the one who got away. He's not looking for love. He's not even looking for sex . . . so why is resisting her the hardest thing he's ever done?

All of Emily's friends seem so perfect: skinny and pretty and fun and flirty. Emily loathes her slightly overweight body, and as her secret bitterness begins to eat away at her soul, she faces the dark prospect of developing an eating disorder. The ninth book in the TrueColor teen fiction series, *Faded Denim* takes a serious look at the important issues of body image and eating disorders. Includes discussion questions.
