Biblical Church Growth I Thessalonians 3:12-4:12 : 9Marks

If those in the church are growing in the grace and knowledge of the Lord Jesus, submitting to His will for their lives, both individually and corporately, that is a church that is experiencing true growth. At the same time, a church can be adding to its rolls weekly, have huge numbers, and still be spiritually stagnant.

Prayer is important to church growth as the church is under the sovereignty of God. The growth of the church will come from God because increase comes from Him. All committed Christians have a responsibility to pray for the growth of the church of God.

Instead of relying on today's models of successful churches, follow the biblical pattern for building a vital and solid church on eternal foundations.

Here for the first time is the story of how the Meserete Kristos Church began in Ethiopia and, using cell groups, grew rapidly during seventeen years under Marxism. Increasing 20 percent a year, MKC is more than a hundred thousand strong and has spread to every region of Ethiopia. This book witnesses to God at work among twentieth-century Anabaptists on two continents.

The cell system is one of the most effective and time proven ways of growing a church but it requires understanding and systematic implementation. Some pastors have heard about the cell system and really desire to grow their church by it, but they do not fully understand it. Others understand it but have had issues implementing it, so they quit, and there are those who are struggling to make it work, but have not given up yet. I wrote this book because of the above issues. Whatever challenge you may have with understanding and implementing the cell system will be addressed. You would also learn about the benefits of the cell system and simple steps you can take to implement it in your church. This is a very vital book because it will also show you a practical prototype of how you can grow your church from 70 to 400 by an effective cell system.

Founded by David Yonggi Cho, Yoido Full Gospel Church is the world's largest church. This book discusses the factors responsible for the phenomenal growth of this church. The book expounds the role played by leadership, the Holy Spirit, prayer, preaching, cell groups and

creativity in promoting church growth, with particular reference to Yoido Full Gospel Church. It focuses on God's Grace (charis) and Inspiring Leadership (charisma) as the two essential factors for church growth and, in this context, examines the part David Yonggi Cho's personal charisma and his ideas or principles play in causing growth. The purpose of the book is to present a model for church growth worldwide.

Many begin the Daniel Fast (or ANY FAST) as a part of their New Year resolutions. Some churches even do it corporately, which is a wonderful thing. It is a great time to come together in unity, denying yourself certain foods, all for the purpose of renewing your walk with the Savior. You want to clean out the old and make way for the new! Jesus also said that some things just do not come about by prayer alone! When the Church is fasting, the enemy is intimidated. Satan isn't worried one bit when we are content with the status quo. But if the Church ever realizes the power it possesses through prayer and fasting, the devil would be on the run! Fasting will change your life. It will draw you closer to God, help you see things about yourself that you need to change, allow God to dig out the ugly and replace it with His grace, and lift those heavy burdens from you that you just don't need to carry or worry about any longer. With God's help, I have attempted to give you, the reader, a road map to follow that can be a help to you on this journey. Fasting isn't about just going without food. If done properly, it can propel you to new heights in your relationship with God. I pray you find this book a tool that you will refer to again and again as you make fasting a regular part of your spiritual life.

A short guide for busy church leaders on what makes local churches grow. A launch pad for prayer, discussion and planning, with ideas, questions and research-based strategies.

Is your church healthy and growing or stagnant and dying? If your church is afflicted with remnant theology, spiritual naval gazing, pastoral timidity, hyper-cooperativism, or terminal ethnikititis, changes are it's already dying on the vine. On the other hand, if your church is growing it's probably ad healthy church. "Healthy churches, like healthy people," says the author, "exhibit certain vital signs." Wagner has his own list of 7 "signs" that lead can be taken as leading to good health and gives many illustrations of churches that exhibit and/or don't exhibit those signs. - Back cover.
