Upon editing the second edition
early last year, I came across the
note again. My slightly elastic
deadline allowed me some time to
muse more that evening. Over the
intervening years, I had come
across quite a few pieces of
ceramic and glass that appeared to
be decorated or inspired by
prehistoric art.

Prehistoric art in Scotland is visual art created or found within the modern borders of Scotland, before the departure of the Romans from southern and central Britain in the early fifth century CE, which is usually seen as the beginning of the early historic or Medieval era. There is no clear definition of prehistoric art among scholars and objects that may involve creativity often lack a context that would allow them to be understood. Prehistoric Art, Revisited Much
like an introductory college survey
to art history, I start my second-
grade art curriculum with a study
of prehistoric art. As an art
teacher and a lover of art history, I
am always amazed by the beauty
and mystery of the first artworks
ever produced by humans.

Examines prehistoric objects and
images from an anthropological,
rather than artistic, perspective.

Until around 10,000 BC art in Europe appears to have been in advance of the rest of the world and throws light on the total history of early man. The great masterpieces of cave-painting at Lascaux are well known, and one tradition of early sculpture is from the first surprisingly classical. With the shelter paintings of the Spanish Levant and the clay modelling and painted pottery of eastern Europe in the fourth and third millennia BC fresh artistic problems were tackled. Later still evolved the high technical accomplishment of the metal-workers, and this study concludes with an account of the new departures of Celtic La Tene art of the last four centuries BC.
