not very interesting.

You can try and make it more acceptable by relating it to real life but this does not work too well with younger pupils. As such, the best way of getting pupils to practise their number work is to connect it to something that they find enjoyable. The worksheets in this pack come in pairs. Each

# Read Free Question Sheet

different pair of sheets is a small conceptual step in the learning of fractions. The first sheet in each pair is a question sheet. The second sheet in each pair is a dot to dot puzzle. Pupils are given the question sheet. Having been taught how to calculate the answers on the question sheet, the pupils are asked to do the questions. Next,

# Read Free Question Sheet

the pupils are given the  
dot to dot puzzle.

Finding the first answer  
from the question sheet,  
on the dot to dot puzzle,  
the children proceed to  
join up the answers  
(from the question  
sheet) in order. This  
should make a  
recognisable picture in  
each case. A significant  
advantage in this  
process, for the teacher,

# Read Free Question Sheet

is a reduction in the amount of marking - the picture being an answer for anything up to 44 questions. Therefore, these sheets are self marking - the pupils gaining almost instant feedback from whether the picture is right or wrong. The end product not only reinforces the pupils' learning of different concepts but

# Read Free Question Sheet

also produces some  
great display work.  
These worksheets have  
been designed for use  
with pupils in the age  
range of 9 to 13 years of  
age, depending on  
ability, with as little  
reading as possible so  
that poor readers are not  
discouraged from  
tackling the problems.  
The pack has been  
arranged so that
