Read Alist - v1docs.bespokify.com

As serialized data structures, Python programmers intensively use arrays, lists, and dictionaries. Storing these data structures persistently requires either a file or a database to work with. This article describes how to write a list to file, and how to read that list back into memory. To write data in a file [\[/writing-files-using-python/\]](#), and to read data from a file [\[/reading-files-with ...](#)
