Humble beans are the true MVPs of the kitchen. They have a long shelf life, are packed with protein, and best of all, they taste great in a wide variety of applications. This collection of 20 foolproof recipes gives beans their due, putting them center stage in recipes such as Ultracreamy Hummus (you've never had homemade hummus this velvety-smooth) and White Bean and Tuna Salad (two pantry-friendly ingredients come together for a dish that's greater than the sum of its parts). We share the secrets to making light and crispy Falafel as well as irresistible soups and sides. Whether you're looking for breakfast inspiration (our recipe for Scrambled Eggs with Pinto Beans and Cotija Cheese delivers tender eggs with a mildly spicy kick), internationally inspired mains such as Palak Dal (Spinach Dal with Cumin and Mustard Seeds) and Tuscan Shrimp and Beans, or hearty vegetarian dishes such as Black Bean Burgers and Meatless "Meat" Sauce with Chickpeas and Mushrooms, this collection gives you 20 great reasons to put beans on the menu.

In this first-ever coloring book from American Vogue, you are invited into a world of fashion fantasy. Twenty-six archival magazine covers from 1912 to 1932, by ten celebrated illustrators living here and abroad, take you back to a more playful and whimsical moment of boas, bows, hats and headpieces, fans, pearls and gloves, and even exotic animals. Coloring book fans of all ages can try their hand at the Art Deco patterns and letters from A to Z and the lively drawings of women dressed for the task at hand, whether it is driving their own car, pruning morning glories in the garden, feeding a dragon, steering a gondola, sitting on a crescent moon, perched on a peacock or riding a zebra—side-saddle, of course. This is the Vogue woman as liberated, stylish, and always dressed for adventure. At the back, don't miss the twenty-six Vogue covers in their original colors with lively captions as well as a stunning six-page gatefold of twenty-one glamorous dresses from 1912-1932 to color, tear out, and display.

Chief of Air Force's policy regarding the concept of 'decision superiority' was first enunciated in the 2007 Future Air and Space Operating Concept.

After the completion of the National Research Council (NRC) report, Maintaining U.S. Leadership in Aeronautics: Scenario-Based Strategic Planning for NASA's Aeronautics Enterprise (1997), the National Aeronautics and Space Administration (NASA) Office of Aeronautics and Space Transportation Technology requested that the NRC remain involved in its strategic planning process by conducting a study to identify a short list of revolutionary or breakthrough technologies that could be critical to the 20 to 25 year future of aeronautics and space transportation. These technologies were to address the areas of need and opportunity identified in the above mentioned NRC report, which have been characterized by NASA's 10 goals (see Box ES-1) in "Aeronautics & Space Transportation Technology: Three Pillars for Success" (NASA, 1997). The present study would also examine the 10 goals to determine if they are likely to be achievable, either through evolutionary steps in technology or through the identification and application of breakthrough ideas, concepts, and technologies.

Provides three scenarios for evolution of the United States' air traffic control (ATC) system from 1981 to 2000: a Baseline scenario in which human control skills are emphasized; an Automated En Route ATC (AERA) scenario in which most routine control functions are performed automatically by computers; and a Shared Control scenario in which human skills are augmented, but not replaced, by machine-based functions. Using the principles of cost effectiveness, technical conservatism, evolutionary progress, and human involvement as guidelines for analysis, these scenarios are compared and contrasted. Human roles, technical issues, and economic implications for each scenario are discussed, leading to the conclusion that human skills are an integral part of the ATC system and should be retained but extended via the Shared Control scenario.
