A professor, critic, and insatiable reader, Jenny Davidson investigates the passions that drive us to fall in love with certain sentences over others and the larger implications of our relationship with writing style. At once playful and serious, immersive and analytic, her book shows how style elicits particular kinds of moral judgments and subjective preferences that turn reading into a highly personal and political act. Melding her experiences as reader and critic, Davidson opens new vistas onto works by Jane Austen, Henry James, Marcel Proust, and Thomas Pynchon; adds richer dimension to critiques of W. G. Sebald, Alan Hollinghurst, Thomas Bernhard, and Karl Ove Knausgaard; and allows for a sophisticated appreciation of popular fictions by Stephen King, Neil Gaiman, Lionel Shriver, George Pelecanos, and Helen DeWitt. She privileges diction, syntax, point of view, and structure over plot and character, identifying the intimate mechanics that draw us in to literature's sensual frameworks and move us to feel, identify, and relate. Davidson concludes with a reading list of her favorite titles so others can share in her literary adventures and get to know better the imprint of her own reading style.

How you can enrich your life by becoming a more skillful and engaged reader of literature We are what we read, according to Robert DiYanni. Reading may delight us or move us; we may read for instruction or inspiration. But more than this, in reading we discover ourselves. We gain access to the lives of others, explore the limitless possibilities of human existence, develop our understanding of the world around us, and find respite from the hectic demands of everyday life. In You Are What You Read, DiYanni provides a practical guide that shows how we can increase the benefits and pleasures of reading literature by becoming more skillful and engaged readers. DiYanni suggests that we attend first to what authors say and the way in which they say it, rather than rushing to decide what they mean. He considers the various forms of literature, from the essay to the novel, the short story to the poem, demonstrating rewarding approaches to each in sample readings of classic works. Through a series of illuminating oppositions, he explores the paradoxical pleasures of reading: solitary versus social reading, submitting to or resisting the author, reading inwardly or outwardly, and more. DiYanni closes with nine recommended reading practices, thoughts on the different experiences of print and digital reading, and advice on what to read and why. Written in a clear, inviting, and natural style, You Are What You Read is an essential guide for all who want to enrich their reading—and their life.

A New York Times bestseller! In this irreverently funny, one-of-a-kind book, transformational comedian Kyle Cease shows you how to love failure and follow your heart, release the addictions of your mind, and live in a state of infinite possibility. If Eckhart Tolle and Jim Carrey had a baby, that baby would be Kyle Cease. After twenty-five years of achieving what he thought were his dreams of being a headlining touring comedian and actor, Kyle Cease suddenly discovered that the belief that " When something happens, I will be happy " is a complete lie. With nothing more than an intuition, he decided to quit his stand-up career at its peak, and now—as a transformational comedian, he brings his one-of-a-kind self-help wisdom to sold-out audiences in his Evolving Out Loud Live stage show. In I Hope I Screw This Up, he disarms readers as he leads them to their own personal breakthroughs, helping them to recognize that actual happiness and fulfillment is available to them—not in some distant future, but right now. As he has shown audiences all over the world, when you embrace your pain, fear, and vulnerability instead of pushing it away, you will discover an authentic creativity and power that is truly unstoppable. Using self-deprecating personal stories, hilarious observations on life, and poorly drawn illustrations, Kyle unravels the deepest issues standing between us and emotional freedom. From discovering the never-ending opportunities that come from playing—and going with whatever comes up in the moment—to learning to let go of what feels heavy in our lives, this book is a journey into the endless possibility that can appear if we just dare to let go of our fear of screwing up. This is not motivation. This is not inspiration. This is true transformation.

Advanced maths has no practical use, and is understood by few. A symphony can be widely appreciated, but created only by a genius. Good writing, however, can be written (and read) by anyone if we give it the gift of our time. And a sentence might be as near as many of us will get to orchestrating beauty. Enter universally praised historian Professor Joe Moran. Using minimal technical terms, First You Write a Sentence. is his unpedantic explanation of how the most ordinary words can be turned into verbal constellations of extraordinary grace. With chapters from tools of the trade (from typewriters to texting and the impact this has on the craft); and writing and the senses (how to make the world visible and touchable); to how to find the ideal word, build a sentence, and construct a paragraph, First You Write a Sentence. informsby light example. It's an elegant gem in praise of the English sentence.

As Ruben Wells kneels with a gun pointed at his head all he can do is reflect on the life he spoiled. What has led him here? Was it his willingness to always try to do the right thing that has him staring at the barrel of a gun? Or was that he was too much of a people pleaser having a hard time saying no that has led to him begging for his life? Every thing begins and ends with a choice. The moment a choice is made it only takes a second for a life to change. Ruben made a choice to initiate a relationship with the alluring Bianca Jones. She makes heads turn and every man's dream. She is beautiful as a gazelle, but as dangerous as a lioness, as she's unavailable due to being unhappily married with children. Being married doesn't keep her from wanting to pursue Ruben as well as being pursued by him. Getting involved with Bianca changes Ruben's life in ways he never could have imagined. Choices are a gift constantly given to everyone. The choices made lead to different paths. We all have to choose this day what we're going to do with our own lives not knowing what the end result will be. What kind of impact will Ruben's choices have on his life?
