Road To Seeing Dan Winters

In Road to Seeing, Dan shares his journey to becoming a photographer, as well as key moments in his career that have influenced and informed the decisions he has made and the path he has taken. Though this book appeals to the broader photography audience, it speaks primarily to the student of photography whether enrolled in school or not and addresses such topics as creating a visual language; the history of photography; the portfolio; street photography; personal projects; his ...

Dan Winters The Road to Seeing is one of the most beautiful books I own. This book is part autobiography and part coffee table book. Winters starts the book with an autobiographical look at his career and then transitions into talking about specific commercial images he has photographed.

The author explains his path to photography, including key career moments and his philosophy of the art, complemented by the portrait, scenic, and artistic photographs that have made him famous.

Periodical Photographs, the long-awaited first monograph from top editorial photographer Dan Winters, provides an overview of his assignment work as a contributor to some of America's most prestigious magazines, including New York, Esquire, Rolling Stone, and the New York Times Magazine. With an emphasis on his iconic portraiture, this volume considers the body of work of a photographer whose unique sensibility is both adaptable and instantly recognizable. Winters is responsible for the definitive portraits of some of Hollywood's most photographed A-listers (Gwyneth Paltrow, Denzel Washington, Leonardo DiCaprio) and music superstars (Bono, Eminem, Willie Nelson). His voracious passion for the quirky and the creative also draws him to visual artists, scientists, architects, and everyday, extraordinary Americans. Designed by Scott Dadich, the award-winning creative director of Wired magazine, Periodical Photographs showcases a photographer at the top of his game.

Published by the Telfair Museums of Savannah, Georgia, to coincide with a major exhibition, Dan Winters' s America is the first museum survey of the career of this talented artist. Winters has spent more than two decades creating memorable photographs for such publications as the New York Times Magazine, Vanity Fair, GQ, and Rolling Stone. Best known for his iconic celebrity portraits, Winters has photographed public figures ranging from the Dalai Lama to President Barack Obama, Hollywood celebrities from Leonardo DiCaprio to Helen Mirren, and artistic luminaries from Jeff Koons to William Christenberry. His style of portraiture is instantly recognizable, characterized by impeccable lighting, muted backgrounds, and the contemplative postures of his sitters. Winters' s lifelong fascination with science, technology, and human ingenuity finds similar expression in significant groups of photographs: close-up studies of honeybees and of airplanes and a magnificent series devoted to the last three launches of NASA' s space shuttles. These photographs reveal an aspect of Winters' s career that is less familiar than his commercial work but equally compelling. In addition to the popular icons, Dan Winters' s America includes expressions of his personal vision. This lyrical body of work shows the same keen eye for lighting and composition, but with a decidedly more intimate ambiance: photographs of his wife and son, spare cityscapes, and elegant collages.

In this first-ever showcase of his work, Gregory Heisler, one of professional photography's most respected practitioners, shares 50 iconic portraits of celebrities, athletes, and world leaders, along with fascinating, thoughtful, often humorous stories about how the images were made. From his famously controversial portrait of President George H.W. Bush (which led to the revocation of Heisler' s White House clearance) to his evocative post-9/11 Time magazine cover of Rudolph Giuliani, to stunning portraits of Julia Roberts, Denzel Washington, Hillary Clinton, Michael Phelps, Muhammad Ali, and many more, Heisler reveals the creative and technical processes that led to each frame. For Heisler' s fans and all lovers of photography, Gregory Heisler: 50 Portraits offers not only a gorgeous collection of both black-and-white and color portraits, but an engrossing look at the rarely seen art of a master photographer at work. With a foreword by New York City mayor Michael R. Bloomberg.

There is so much detail to be captured in a face. Cicero (106-43 BC) said: "The face is a picture of the mind as the eyes are its interpreter." To capture a person's personality, there are many things to keep in mind, and the authors of FACES show us how to match up a personality with lighting, posing, and composition. Portraiture is truly an art, and this book dives deep into the details so that you end up with a gorgeous portrait that both you and your subject love. Not only is this book the most comprehensive title available on portraiture, but it contains stunning images. Each image is paired with a lighting diagram, a description of why the type of image was chosen, and then takes you through postproduction to put the finishing touches on. The authors also showcase a gallery of portraits by renowned photographers.

1996 Minnesota Book Award winner — A Native American book The heart of the Native American experience: In this 1996 Minnesota Book Award winner, Kent Nerburn draws the reader deep into the world of an Indian elder known only as Dan. It' s a world of Indian towns, white roadside cafes, and abandoned roads that swirl with the memories of the Ghost Dance and Sitting Bull. Readers meet vivid characters like Jumbo, a 400-pound mechanic, and Annie, an 80-year-old Lakota woman living in a log cabin. Threading through the book is the story of two men struggling to find a common voice. Neither Wolf nor Dog takes readers to the heart of the Native American experience. As the story unfolds, Dan speaks eloquently on the difference between land and property, the power of silence, and the selling of sacred ceremonies. This edition features a new introduction by the author, Kent Nerburn. " This is a sobering, humbling, cleansing, loving book, one that every American should read. " — Yoga Journal If you enjoyed Empire of the Summer Moon, Heart Berries, or You Don' t Have to Say You Love Me, you' ll love owning and reading Neither Wolf nor Dog by Kent Nerburn.

In The Grey Ghost: New York City Photographs, Dan Winters turns his eye to New York City, collecting over 100 black-and-white images he created there in the years after moving to New York from California in 1987 at the age of 25. A highly personal collection, The Grey Ghost reveals an artist finding his voice, discovering "that elusive method that informs the manner in which we perceive and interpret our surroundings." In these photographs-- featuring icons of New York City such as the Statue of Liberty and the Empire State Building, as well as everyday moments captured on the street--we find Winters presenting us with the seemingly ordinary and commonplace in a way that captivates us and makes us look much more closely. As Winters writes, New York "has acted as a proving ground

and a right of passage for countless photographers," beginning with Alfred Stieglitz and Paul Strand. For those interested in street photography, New York City, black-and-white imagery, or the earlier work of one of today's most compelling photographers, *The Grey Ghost* is a must-have addition to your photobook collection.

A triumphant tale of a young woman and her difficult childhood, *The Glass Castle* is a remarkable memoir of resilience, redemption, and a revelatory look into a family at once deeply dysfunctional and wonderfully vibrant. Jeannette Walls was the second of four children raised by anti-institutional parents in a household of extremes.

Through journal entries, sixteen-year-old Miranda describes her family's struggle to survive after a meteor hits the moon, causing worldwide tsunamis, earthquakes, and volcanic eruptions.
