It's full of interest from the beginning, benefits from the author's personal experience of Russia, and provides ample evidence for the thesis that the default position for Russian society & government is autocracy.

~~Amazon.com: Russia: A 1000-Year Chronicle of the Wild East—~~

A very breezy and accessible read and a super introduction to the topic, this book 's subtitle is nonetheless hugely misleading – ' A 1,000-Year Chronicle of the Wild East ' overlooks the fact that, in a book stretching to 530 pages, Peter the Great is dealt with by page 74 and Catherine the Great by page 99 while the Crimean War gets little but a passing mention and accounts of pre-revolutionary Russia form only a third of the book.

Colloquial, personal and anecdotal in style . . . well researched and factually sound."The Times Literary Supplement

Combining in-depth research with his personal experiences as the BBC Moscow correspondent for almost twenty years, Sixsmith tells Russia's full and fascinating story, from its foundation in the last years of the tenth century to the first years of the twenty-first, skillfully tracing the conundrums of modern Russia to their roots in its troubled past. Covering politics, music, literature and art, he explores the myths Russians have created from their history. Marking the twentieth anniversary of the dissolution of the Soviet Union, Russia is essential reading for anyone who wants to understand the complex political landscape of Russia and its unique place in the modern world.

A major new history of the Cold War that explores the conflict through the minds of the people who lived through it. More than any other conflict, the Cold War was fought on the battlefield of the human mind. And, nearly thirty years since the collapse of the Soviet Union, its legacy still endures—not only in our politics, but in our own thoughts and fears. Drawing on a vast array of untapped archives and unseen sources, Martin Sixsmith vividly recreates the tensions and paranoia of the Cold War, framing it for the first time from a psychological perspective. Revisiting towering, unique personalities like Khrushchev, Kennedy, and Nixon, as well as the lives of the unknown millions who were caught up in the conflict, this is a gripping narrative of the paranoia of the Cold War—and in today's uncertain times, this story is more resonant than ever.

New York Times Bestseller The heartbreaking true story of an Irishwoman and the secret she kept for 50 years When she became pregnant as a teenager in Ireland in 1952, Philomena Lee was sent to a convent to be looked after as a "fallen woman." Then the nuns took her baby from her and sold him, like thousands of others, to America for adoption. Fifty years later, Philomena decided to find him. Meanwhile, on the other side of the Atlantic, Philomena 's son was trying to find her. Renamed Michael Hess, he had become a leading lawyer in the first Bush administration, and he struggled to hide secrets that would jeopardize his career in the Republican Party and endanger his quest to find his mother. A gripping exposé told with novelistic intrigue, Philomena pulls back the curtain on the role of the Catholic Church in forced adoptions and on the love between a mother and son who endured a lifelong separation.

Accessible to students, tourists and general readers alike, this book provides a broad overview of Russian history since the ninth century. Paul Bushkovitch emphasizes the enormous changes in the understanding of Russian history resulting from the end of the Soviet Union in 1991. Since then, new material has come to light on the history of the Soviet era, providing new conceptions of Russia's pre-revolutionary past. The book traces not only the political history of Russia, but also developments in its literature, art and science. Bushkovitch describes well-known cultural figures, such as Chekhov, Tolstoy and Mendeleev, in their institutional and historical contexts. Though the 1917 revolution, the resulting Soviet system and the Cold War were a crucial part of Russian and world history, Bushkovitch presents earlier developments as more than just a prelude to Bolshevik power.

The story of the Soviet occupation of Afghanistan is well known: the expansionist Communists overwhelmed a poor country as a means of reaching a warm-water port on the Persian Gulf. Afghan mujahideen upset their plans, holding on with little more than natural fighting skills, until CIA agents came to the rescue with American arms. Humiliated in battle, the Soviets hastily retreated. It is a great story-but it never happened. In this brilliant, myth-busting account, Rodric Braithwaite, the former British ambassador to Moscow, challenges much of what we know about the Soviets in Afghanistan. He provides an inside look at this little-understood episode, using first-hand accounts and piercing analysis to show the war as it was fought and experienced by the Russians. The invasion was a defensive response to a chaotic situation in the Soviets' immediate neighbor. They intended to establish a stable, friendly government, secure the major towns, and train the police and armed forces before making a rapid exit. But the mission escalated, as did casualties. Braithwaite does not paint the occupation as a Russian triumph. To the contrary, he illustrates the searing effect of the brutal conflict on soldiers, their families, and the broader public, as returning veterans struggled to regain their footing back home. Now available in paperback, Braithwaite carries readers through these complex and momentous events, capturing those violent and tragic days as no one has done before.

Now available in paperback, this Chronicle documents the lives of Tsars famous and infamous in a lively series of biographical portraits stretching from the late 15th to the early 20th centuries. With its comprehensive timelines, datafiles, quotations and stunning illustrations, Chronicle of the Russian Tsars is at once an absorbing narrative history and an essential work of reference that brings to life a powerful empire and distinctive civilization whose impact on the history of Europe and the world is immeasurable.

WINNER OF THE WOLFSON PRIZE 2013 The extraordinary story of the Kremlin - from prize-winning author and historian Catherine Merridale Both beautiful and profoundly menacing, the Kremlin has dominated Moscow for many centuries. Behind its great red walls and towers many of the most startling events in Russia's history have been acted out. It is both a real place and an imaginative idea: a shorthand for a certain kind of secretive power, but also the heart of a specific Russian authenticity. Catherine Merridale's exceptional book revels in both the drama of the Kremlin and its sheer unexpectedness: an impregnable fortress which has repeatedly been devastated, a symbol of all that is Russian substantially created by Italians. The many inhabitants of the Kremlin have continually reshaped it to accord with shifting ideological needs, with buildings conjured up or demolished to conform with the current ruler's social, spiritual, military or regal priorities. In the process, all have claimed to be the heirs of Russia's great historic destiny.

A leading international authority discusses all aspects of Russian history, from the struggle by the state to control society to the transformation of the nation into a multi-ethnic empire, Russia's relations with the West and the post-Soviet era. Original.

The story of the coup in August 1991 which saw Gorbachev ousted from power. The author was in Moscow at the time, as the correspondent for BBC TV, and offers an eyewitness account of events which changed the world, and an analysis of the background leading up to them.

Explores the social and political aspects of Russian art in a saga that spans Byzantine Christianity, the czarist splendor, the return of brutalized exiles to their homelands, and the artists who captured these moments
