However, the results can be slightly misleading: They tell you only the year in which the other calendar's year begins. For example, 2015 Gregorian begins in Rabi al-Awwal, the third month of hijri 1436, and ends in that same month hijri 1437. Gregorian year = [(32 x Hijri year) ÷ 33] + 622. Hijri year = [(Gregorian year - 622) x 33] ÷ 32. Online calculators are available at several ...

Saudi Arabia has begun a fundamental policy shift to respond to low oil prices. The government has introduced a series of reforms over the past year and has recently set out plans for a bold and ambitious transformation of the Saudi Arabian economy in Vision 2030 and the National Transformation Program. Diversifying the economy, creating jobs for nationals in the private sector, and implementing a gradual, but sizable and sustained fiscal consolidation are key policy priorities.

For the Saudi Arabia 2020 publication, our sixth annual edition on the Kingdom's economy, we placed heavy emphasis on technology and innovation as a catalyst for change, as well as the developments

in the digital economy. Across numerous industries, technology is playing an increasingly greater role—as a global trend but no less true for Saudi Arabia, which has in recent years committed large-scale investment into digital transformation. The Business Year's country-specific publications, sometimes featuring over 150 face-to-face interviews, are among the most comprehensive annual economic publications available internationally. This 280-page publication covers finance, green economy, energy, water, industry, defense, transport, aviation, digital economy, real estate, construction, food, agriculture, health, education, entertainment, culture, and sports.

Written from the unique perspective of a fast jet cockpit, Tornado Over the Tigris captures the essence of what it was really like to fly a Tornado at the front-line of the Cold War in Germany and on operations over Iraq in the aftermath of the Gulf War. After achieving a boyhood ambition to qualify as an RAF pilot, Michael Napier was posted to RAF Bruggen in Germany where he spent five years flying Tornado GR1 strike/attack aircraft at the height of the Cold War. Always exhilarating, sometimes amusing and often dangerous, Michael Napier's Tornado flying ranged from 'routine' low-flying in continental Europe and the UK, to air combat manoeuvring in Sardinia and the ultra-realistic Red Flag exercises in the USA. Progressing from struggling first-tourist to respected four-ship leader, he then became an instructor at the Tactical Weapons Unit at RAF Chivenor. This tour, during which he flew the Hawk, provided yet more exciting and challenging flying. He returned to the Tornado at Bruggen as a Flight Commander shortly after the Gulf War and subsequently flew a number of operational sorties over Iraq, which included leading air-strikes against Iraqi air

defence installations as part of major Coalition operations. This is his story, told with ease and great style. It is sure to inspire a fresh generation of fast jet pilots as they strive to make their own marks in this field.

Now in its 153rd edition, The Statesman's Yearbook continues to be the reference work of choice for accurate and reliable information on every country in the world. Football is the most popular sport in the world. Globalisation and commercialisation of the game, however, have created new conflicts and challenges. This book explores the role of the Asian Football Confederation (AFC) within the rising significance of football in Asia, drawing on three key theoretical perspectives: globalisation, neo-institutionalism and governance, as well as comprehensive data from interviews and archive material. It explores the organisational structure of AFC, its decision-making processes, relations with other actors, and policies put forward. To understand the specificities AFC has faced in its 60-year history, the broader historical, political, economic, socio-cultural and geographic contexts of football in Asia are taken into account.
