He has gathered a seasoned team of scientists—the best terran minds in the Koprulu sector—to unravel the secrets of the savage zerg and the enigmatic protoss. Because in this brutal corner of the galaxy, the human race is going to need every chance it can get. Collected here for the first time is Blizzard Entertainment 's revolutionary Project Blackstone transmedia campaign. It is a compilation of tightly woven short stories, journals, emails, chats, and tweets from the research staff of a top-secret government facility dedicated to shedding light on the mysteries of this sector. Far in the future, 60,000 light-years from Earth, a loose confederacy of Terran exiles are locked in battle with the enigmatic Protoss and the ruthless Zerg Swarm. Each species struggles to ensure its own survival among the stars in a war that will herald the beginning of mankind's greatest chapter -- or foretell its violent, bloody end. Bhekar Ro: a bleak, backwater world on the fringe of the Terran Dominion, where every day is a struggle to survive for its handful of human colonists. It is a veritable wasteland -- one speck of dust among many in the vast, dark sea of space. But when the most violent storm in recent memory unearths an unfathomable alien artifact, Bhekar Ro becomes the greatest prize in the Terran Sector -- the Holy Grail of the Zerg, the Protoss, and Humanity alike -- as forces from the three great powers converge to claim the lost secrets of the most powerful species the universe has ever known. shadow of the xel'naga An original tale of space warfare novels set in the world of the bestselling computer game!

Writer Jody Houser (Mother Panic, Faith) and artist Gabriel Guzmán (Mass Effect, Star Wars) join forces for StarCraft, a new series further exploring the expansive universe of Blizzard's hit video game. Seen from the point of view of a young, inexperienced engineer, a group of terran space scavengers hope to pull off the job of their lifetimes, ignoring a recent United Earth Directorate treaty to pillage a derelict protoss ship. The scavengers' dangerous plan is compounded by the fact that the protoss ship is in a decaying orbit above a backwater planet. If their time doesn't run out and Dominion police forces don't bust them, will protoss or zerg factions in the outer rim find and execute them?
