wine regions ever published. There are books that describe the geography of wine regions. And there are books that describe the way basic wines and grapes should taste. But there are no books that describe the intricacies of the way wines from various subregions, soils, and appellations should taste. Now, for the first time ever, you can learn about the differences between wines from the 7 grand crus and 40 premier crus of Chablis, or the terroirs in Barolo, Champagne, and Bordeaux. Paying attention to styles, winemakers, soils, and the most cutting-edge of trends, this book explains how to understand the wines of the world not in the classical way, but in the modern way--appellation by appellation, soil by soil, technique by technique--making it an essential reference and instant classic.

sommelier and blogger Madeline Puckette writes that this book is the Kitchen Confidential of the wine world, she's not wrong, though Bill Buford's Heat is probably a shade closer." —Jennifer Senior, The New York Times Professional journalist and amateur drinker Bianca Bosker didn't know much about wine—until she discovered an alternate universe where taste reigns supreme, a world of elite sommeliers who dedicate their lives to the pursuit of flavor. Astounded by their fervor and seemingly superhuman sensory powers, she set out to uncover what drove their obsession, and whether she, too, could become a “cork dork.” With boundless curiosity, humor, and a healthy dose of skepticism, Bosker takes the reader inside underground tasting groups, exclusive New York City restaurants, California mass-market wine factories, and even a neuroscientist's

in recent years. The New California Wine is the untold story of the California wine industry: the young, innovative producers who are rewriting the rules of contemporary winemaking; their quest to express the uniqueness of California terroir; and the continuing battle to move the state away from the overly-technocratic, reactionary practices of its recent past. Jon Bonné writes from the front lines of the California wine revolution, where he has access to the fascinating stories, philosophies, and techniques of top producers. There is no other wine that is as versatile, as utterly unique in its range and production methods--and, unfortunately,

as misunderstood—as sherry. For centuries, sherry was considered one of the world's great wines, spoken about in the same reverential terms as the finest Bordeaux and Burgundies. But in the last few decades, sherry lost its way—and cheap, cloyingly sweet blends sullied the reputation of what remains one of Spain's oldest and greatest winemaking traditions. Thankfully, sherry is in the midst of a renaissance. Beloved of sommeliers and bartenders in the craft cocktail community, today sherry is being re-discovered and re-appreciated as an incredible table wine and essential component of many classic cocktails. Sherry is essential reading for wine or spirits professionals looking to incorporate this complex wine into their menu, and for adventurous drink enthusiasts who are on the hunt for something unexpected. With a comprehensive yet accessible overview of

the different styles of sherry, how they are made, and the people and places that produce it, Sherry demystifies what can be a confusing (and seemingly contradictory) wine. A thorough buyer's guide lists top producers and profiles the very best bodegas and wines. And a whole chapter on sherry-based cocktails illuminates a completely different side of sherry, featuring classic recipes like the Tuxedo and Sherry Cobbler, as well as modern creations from the country's top bartenders (Jim Meehan's East India Negroni, Derek Brown's Kojo Cocktail). More than a dozen recipes for tapas and other delicious foods—best eaten alongside a glass of sherry, of course—round out this wonderfully eclectic, engaging, and inspiring collection.
