Dr. A. Jean Ayres began to develop sensory integration theory, as well as the evaluation procedures and intervention strategies that were associated with this framework, in the 1950s. When Sensory Integration and the Child was first published in the late 1970s, many aspects of her work were becoming more widely known. Although she was a dedicated researcher and educator, Dr. Ayres was foremost a therapist who worked tirelessly to help the children and families who came to her therapy clinic.

Do you have a child in your early childhood classroom who: Climbs on top of furniture and jumps off? Covers his ears when children are singing? Refuses to touch clay, paint, or sand? Often falls down and skins his or her knees? Refuses to play on outdoor playground equipment? If so, it is possible this child is having trouble with sensory integration. How can teachers help children with these problems so they can enjoy learning and grow in positive ways? The Sensory Integration Book helps identify children who have difficulties with sensory processing and offers preschool teachers simple, easy-to-use solutions to support the sensory needs of young children in the preschool classroom. Easy-to-implement solutions include adaptations and activities for children with different types of Sensory Processing Disorder. This book has a bonus chapter with instructions on creating low-cost items to help children with sensory issues.
