On the challenges that children and young people face in their day-to-day lives and how to cope.

This book tells the story of Task Force Ranger – a unit of US Rangers and Special Forces – and their attempt to capture the lieutenants of the Somali warlord Mohamed Farah Aided, during the 1993 United Nations' humanitarian relief mission. What started as a simple snatch-and-grab mission quickly degenerated into a desperate battle for survival when US Black Hawk helicopters were struck by rocket-propelled grenades and crashed into the streets of Mogadishu. Racing to save the crew, Task Force Ranger was surrounded by mobs of hostile Somali gunmen. The battle in the city raged all night as the better-equipped and better-trained US forces kept the nearly overwhelming numbers of Somalis at bay. Finally, battered, bloodied, and low on ammunition, the Task Force was rescued by a combined UN and US relief force and extracted to safety. Containing detailed maps and declassified information, this is a dramatic retelling of a brutal battle that had a far-reaching impact on US military policy.

This book is one of the many Islamic publications distributed by Talee throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Talee (www.talee.org) is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shia School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant folks, Muslims and non-Muslims. Organization's purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought! In addition, Talee aims at encouraging scholarship, research and enquiry through the use of technological facilities. For a complete list of our published books please refer to our website (www.talee.org) or send us an email to info@talee.org
