The focus on smart education has become a new trend in the global educational field. Some countries have already developed smart education systems and there is increasing pressure coming from business and tech communities to continue this development. Simultaneously, there are only fragmented studies on the didactic aspects of technology usage. Thus, pedagogy as a science must engage in a new research direction—smart pedagogy. This book seeks to engage in a new research direction, that of smart pedagogy. It launches discussions on how to use all sorts of smart education solutions in the context of existing learning theories and on how to apply innovative solutions in order to reduce the marginalization of groups in educational contexts. It also explores transformations of pedagogical science, the role of the educator, applicable teaching methods, learning outcomes, and research and assessment of acquired knowledge in an effort to make the smart education process meaningful to a wide audience of international educators, researchers, and administrators working within and tangential to TEL.

Originally published as a special issue of the Journal of Dance Education, this collection brings together a number of insightful chapters which explore themes relating to responsible citizenship within dance education. Presenting research, scholarship, experiences, and pedagogical approaches from national and international contexts, and diverse educational settings, the chapters included in this book demonstrate how the study of dance requires students to develop a clear sense of self- and group-responsibility. Including high-level contributions from a range of researchers, educators, and dance instructors, the volume investigates how research and instruction can contribute to building communities; and ensure that dance education reacts to shifting social, political, and cultural norms. Responsible citizenship and civic engagement are examined in relation to course content, pedagogical approaches, systemic practices, and cultural assumptions. This valuable collection of diverse and insightful chapters will be of great interest to researchers, post-graduate academics, teachers and instructors in the fields of dance and teacher education.
