This book is prepared in accordance with the syllabi of English Language Teaching Mythology Courses in B.Ed. Degree, TCH, and training courses in DIETs all over India. It has been designed to provide a detailed account of the past and current trends in the teaching of English as a second language.

The present volume examines the relationship between second language practice and what is known about the process of second language acquisition, summarising the current state of second language acquisition theory, drawing general conclusions about its application to methods and materials and describing what characteristics effective materials should have. The author concludes that a solution to language teaching lies not so much in expensive equipment, exotic new methods, or sophisticated language analysis, but rather in the full utilisation of the most important resources - native speakers of the language - in real communication.

This book introduces readers to the concept of task-based language teaching (TBLT), a learner-centred and experiential approach to language teaching and learning. Based on the premise that language learners can enhance their second language acquisition (SLA) through engagement in communicative tasks that compel them to use language for themselves, TBLT stands in contrast to more traditional approaches. Accessible and comprehensive, this book provides a foundational overview of the principles and practice of TBLT and demystifies what TBLT looks like in the classroom. Complete with questions for reflection, pedagogical extensions for application in real classrooms and further reading suggestions in every chapter, this valuable and informative text is vital for anyone interested in TBLT, whether as students, researchers or teachers.

Effective Curriculum for Teaching L2 Writing sets out a clear big picture for curricular thinking about L2 writing pedagogy and offers a step-by-step guide to curriculum design with practical examples and illustrations. Its main purpose is to help pre-service and practicing teachers design courses for teaching academic writing and to do this as efficiently and effectively as possible. Bringing together the what and the how-to with research-based principles, what sets this book apart is its overarching focus on language pedagogy and language building. Part 1 examines curricular foundations in general and focuses on what is socially valued in L2 writing and pedagogy at school and at the college and university level. Part 2 is concerned with the nitty-gritty—the daily realities of curricular design and classroom instruction. Part 3 takes a close look at the key pedagogical ingredients of teaching academic L2 writing: vocabulary and collocations, grammar for academic writing, and down-to-earth techniques for helping L2 writers to organize discourse and ideas. The Appendix provides an extensive checklist for developing curricula for a course or several courses in language teaching.

Create Better Compositions by Design The path to better painting begins with Mastering Composition. This effective guide blends clear, visual instruction with 5 step-by-step demonstrations to show you how to plan and paint your best work yet. Composition is the key, and here you'll learn to design paintings with new skill and confidence. It all begins with the armature or structure of the picture plane. Every great painting has one, and you'll see through several famous examples exactly how the Old Masters used armatures to create movement, narrative, harmony and fluidity. Based on these examples, you'll practice what you've learned following a series of hands-on demonstrations. Once you understand the basic principles of design, you'll be amazed at how quickly and effectively your compositions come together. Soon you will be painting more boldly and confidently than ever before with less reworking and overworking. Whether you're a beginner looking for basic instruction or a more advanced painter troubleshooting a specific problem, the proven methods in this book will work for you. Ideal for all mediums, Mastering Composition gives you the knowledge you need to create powerful paintings out of every subject.
