Thesis papers need to be properly understood and support the author's claims of research. Therefore, it is also important for thesis writers to come up with an argumentative piece. This means that the writer must be able to support their points of view and to have well-crafted prose that will help support their claim and give readers a good insight into how they think and what they believe.

Nicki's teacher-brother assigns her a term paper on the topic of a death in their family, in hopes that she will release long-suppressed emotion about the event.

Americans have always put the past to political ends. The Union laid claim to the Revolution--so did the Confederacy. Civil rights leaders said they were the true sons of liberty--so did Southern segregationists. This book tells the story of the centuries-long struggle over the meaning of the nation's founding, including the battle waged by the Tea Party, Glenn Beck, Sarah Palin, and evangelical Christians to "take back America." Jill Lepore, Harvard historian and New Yorker staff writer, offers a careful and concerned look at American history according to the far right, from the "rant heard round the world," which launched the Tea Party, to the Texas School Board's adoption of a social-studies curriculum that teaches that the United States was established as a Christian nation. Along the way, she provides rare insight into the eighteenth-century struggle for independence--a history of the Revolution, from the archives. Lepore traces the roots of the far right's reactionary history to the bicentennial in the 1970s, when no one could agree on what story a divided nation should tell about its unruly beginnings. Behind the Tea Party's Revolution, she argues, lies a nostalgic and even heartbreaking yearning for an imagined past--a time less troubled by ambiguity, strife, and uncertainty--a yearning for an America that never was. *The Whites of Their Eyes* reveals that the far right has embraced a narrative about America's founding that is not only a fable but is also, finally, a variety of fundamentalism--anti-intellectual, antihistorical, and dangerously antipluralist. In a new afterword, Lepore addresses both the recent shift in Tea Party rhetoric from the Revolution to the Constitution and the diminished role of scholars as political commentators over the last half century of public debate.

Ideal for students new to academic writing, *Writing in the Social Sciences, Second Edition*, is a clear, step-by-step guide to the entire writing process. Students will learn how to select and research a topic, develop and refine their ideas into a comprehensive outline, and convert the outline into a research paper or book report.

This accessible text provides a roadmap for producing a high-quality literature review--an integral part of a successful thesis, dissertation, term paper, or grant proposal. Each step of searching for, evaluating, analyzing, and synthesizing prior studies is clearly explained and accompanied by user-friendly suggestions, organizational tips, vignettes, and examples of student work. Also featured are excerpts from peer-reviewed quantitative, qualitative, and mixed methods articles. This is the first book to focus on crafting different types of reviews (systematic, traditional--narrative, or hermeneutic--phenomenological) that reflect the writer's research question, methodological choices, and approaches to knowledge. It describes what all reviews have in common and highlights distinct characteristics of each type. The book includes dos and don'ts for evaluating studies and constructing an argument, and software suggestions for locating, organizing, and arranging sources. Pedagogical Features *Checklists and "To Do" activities that break down key steps to take. *Boxed examples, graphics that organize and visually illustrate key concepts, and summary tables. *Group activities that invite students to further explore and apply the methods discussed in each chapter. *Detailed directions for using four different organizing strategies: synthesis matrix, summary table, mapping, and topic outline. *End-of-chapter summaries and "What's Next" sections. *Assessment matrices for reviewing and refining the completed literature review.

Even students capable of writing excellent essays still find their first major political science research paper an intimidating experience. Crafting the right research question, finding good sources, properly summarizing them, operationalizing concepts and designing good tests for their hypotheses, presenting and analyzing quantitative as well as qualitative data are all tough-going without a great deal of guidance and encouragement. *Writing a Research Paper in Political Science* breaks down the research paper into its constituent parts and shows students what they need to do at each stage to successfully complete each component until the paper is finished. Practical summaries, recipes for success, worksheets, exercises, and a series of handy checklists make this a must-have supplement for any writing-intensive political science course. New to the Fourth Edition: A non-causal research paper woven throughout the text offers explicit advice to guide students through the research and writing process. Updated and more detailed discussions of plagiarism, paraphrases, "drop-ins," and "transcripts" help to prevent students from misusing sources in a constantly changing digital age. A more detailed discussion of "fake news" and disinformation shows students how to evaluate and choose high quality sources, as well as how to protect oneself from being fooled by bad sources. Additional guidance for writing abstracts and creating presentations helps students to understand the logic behind abstracts and prepares students for presentations in the classroom, at a conference, and beyond. A greater emphasis on the value of qualitative research provides students with additional instruction on how to do it.

This Second Edition of Diana Ridley ' s bestselling guide to the literature review outlines practical strategies for reading and note taking, and guides the reader on how to conduct a systematic search of the available literature, and uses cases and examples throughout to demonstrate best practice in writing and presenting the review. New to this edition are examples drawn from a wide range of disciplines, a new chapter on conducting a systematic review, increased coverage of issues of evaluating quality and conducting reviews using online sources and online literature and enhanced guidance in dealing with copyright and permissions issues.

Garnering international prizes and acclaim before its publication, *Ilustrado* has been called "brilliantly conceived and stylishly executed . . . It is also ceaselessly entertaining, frequently raunchy, and effervescent with humor" (2008 Man Asian Literary Prize panel of judges). It begins with a body. On a clear day in winter, the battered corpse of Crispin Salvador is pulled from the Hudson River—taken from the world is the controversial lion of Philippine literature. Gone, too, is the only manuscript of his final book, a work meant to rescue him from obscurity by exposing the crimes of the Filipino ruling families. Miguel, his student and only remaining friend, sets out for Manila to investigate. To understand the death, Miguel scours the life, piecing together Salvador's story through his poetry, interviews, novels, polemics, and memoirs. The result is a rich and dramatic family saga of four generations, tracing 150 years of Philippine history forged under the Spanish, the Americans, and the Filipinos themselves. Finally, we are surprised to learn that this story belongs to young Miguel as much as to his lost mentor, and we are treated to an unhindered view of a society caught between reckless decay and hopeful progress. Exuberant and wise, wildly funny and deeply moving, *Ilustrado* explores the hidden truths that haunt every family. It is a daring and inventive debut by a new writer of astonishing talent.

How seeing turns into showing, how empirical observations turn into explanation and evidence. How to produce and consume evidence presentations.
