The Anglo-Boer War (1899-1902) is one of the most intriguing conflicts of modern history. It has been labeled many things: the first media war, a precursor of the First and Second World Wars, the originator of apartheid. The difference in status and resources between the superpower Great Britain and two insignificant Boer republics in southern Africa was enormous. But, against all expectation, it took the British every effort and a huge sum of money to win the war, not least by unleashing a campaign of systematic terror against the civilian population. In *The Boer War*, winner of the Netherland's 2013 Libris History Prize and shortlisted for the 2013 AKO Literature Prize, the author brings a completely new perspective to this chapter of South African history, critically examining the involvement of the Netherlands in the war. Furthermore, unlike other accounts, Martin Bossenbroek explores the war primarily through the experiences of three men uniquely active during the bloody conflict. They are Willem Leyds, the Dutch lawyer who was to become South African Republic state secretary and eventual European envoy; Winston Churchill, then a British war reporter; and Deneys Reitz, a young

Boer commando. The vivid and engaging experiences of these three men enable a more personal and nuanced story of the war to be told, and at the same time offer a fresh approach to a conflict that shaped the nation state of South Africa.

The Anglo-Boer War in 100 Objects brings the victories and the tragedies and the full extent of the human drama behind this war to life through 100 iconic artifacts. While a Mafeking siege note helps to illustrate the acute shortages caused by the siege, a spade used by a Scottish soldier at Magersfontein and the boots of a Boer soldier who died at Spion Kop tell of the severity of some of the famous battles. The book follows the course of the war but also highlights specific themes, such as British and Boer weaponry, medical services and POW camps, as well as major figures on both sides. The text is interspersed with striking historical images from the museums photographic collection. More than 200 additional objects have been included to help tell the story of a conflict that left an indelible mark on the South African landscape.

Seminar paper from the year 2006 in the subject History - Africa, grade: 1,3, University of Osnabrück, 9 entries in the bibliography, language: English, abstract: The Boer Wars at the dawn of the century highly influenced not only South African history, especially in terms of the development of the apartheid system, but it additionally changed the possibilities of warfare. These conflicts between the British Empire and the two independent Boer republics, the Orange Free State and the Transvaal (South African Republic) took place from 1880 to 1881 and 1899 to 1902. Even though formally there have been two wars in a short period of time, one usually focuses on the Second Boer War, also known as the South African War, Anglo-Boereoorlog (Anglo-Boer War), Tweede Vryheidsoorlog (Second Freedom War) or "Tea-Time War". This paper will mainly concentrate on the South African War, even though background information will be provided. Historians ought not to ask "What if...?", since they have to focus on facts. But ignoring this guideline for a moment, fascinating questions arise: "What if the large deposits of gold and diamonds in the Transvaal were not found in the 1870s and 1880s? Would the British have fought for the rights of the uitlanders nevertheless?" These are two of the questions which will be dealt with (in 2.1) when reasoning the origins / causes of the war. Following, the paper will bring together the facts and some unusual features of the South African War. Its center of attention will be the Guerilla War starting of in September 1900 and lasting till the Treaty of Vereeniging in May 1902, the end of the War.

The South African War 1899-1902 (variously known as the Anglo-Boer, or to Afrikaners as the English War, die Engelseoorlog, or the Second War of Freedom, Tweede Vryheidsoorlog) continues to generate considerable interest among authors and readers alike, fascinated by a conflict that embodied human drama, tragedy, heroism and military and political folly on a grand scale.

Fostered by an increasingly literate public and burgeoning populist press, the South African War—which ended the lives of many volunteer British soldiers—would catalyze a transition in British commemorative practice, foreshadowing the rituals of remembrance that engulfed Britain in the aftermath of the First World War. In this book, Peter Donaldson provides the first comprehensive look at how the British remembered the South African War and its fighters. He situates memorialization within larger Edwardian Britain, examining everything from the committees who managed memorials to the financing that supported them to the aesthetic debates that determined their forms. Through his comprehensive study of the remembrance of this single war, Donaldson illuminates the ways Britain has gone about managing history—and its sense of self within it—ever since.

(FB05-Gesellschaftswissenschaften), course: Environmental History of Great Britain, language: English, abstract: This paper is about the question why a war took place in South Africa during the nineteenth and twentieth century between the Boers and the British. It aims at trying to understand and distinguish the different position, ideologies, origins, views and tensions between the “ two European participants ” of the war. The aim of the paper is to understand and investigate the reason of the European (and Afrikaner) hostility. Eventually, the result of the outbreak of the war. Moreover, the war was mostly interpreted as a “ whites man ’ s war ” by historians, in which only the actions and interests of the white communities in South Africa were directly involved. Unfortunately, “ one ” group was not really taken into consideration. First, the participation of black people in the war. Secondly, the influence of the Anglo-Boer war to the black (also white) society and environment. And third, the response by black Africans to the conflict which has been passed almost completely over the years. The South African War (known as the Anglo-Boer War) from 1899 to 1902 remains the most destructive and terrible modern armed conflict, South Africa has experienced. The war represented itself as a powerful event, which shaped the history of South Africa in the twentieth century. The path to a major Anglo-Boer War was tortuous and involved conflicts of interest, ambitiousness and ideologies, especially between the Boer “ group ” and the British. In order to understand the history of the Anglo-Boer war itself and the participates in the war (the Boers and the British), it is important to know the role of Europeans in South Africa by a historical analysis.

The devastating war that raged upon the South African veldt between 1899 and 1902 the first of the 20th century wars was small in comparison with the World Wars. Yet it remains a war with many revealing facets with regard to military, political, and social issues. The conflict between the British Empire and the Boer settlers was in many ways a precursor to what was to come. It saw vast changes in the organization, tactics, and weapons used by the British army; it had far-reaching effects on the white political structure in the country; and it stimulated Afrikaner nationalism, which may partly explain the introduction of apartheid. The A to Z of the Anglo-Boer War presents the history of this war, which is also known as "the South African War," "the Boer War," and "the Transvaal War." This is done through a chronology, an introductory essay, a bibliography, and over 600 cross-referenced dictionary entries covering a wide range of military, social, cultural, and political topics. Whether reading about black involvement in the war or repatriation and compensation after the war, this reference presents the latest in research on this important conflict."

This collections of essays by leading British and South African scholars, looking at the Boer War, focuses on three aspects: how the British Military functioned; the role of the Boers, Afrikaners and Zulus; and the media presentation of the war to the public.
