The World Fantasy Award-winning thriller about a girl no one can remember, from the acclaimed author of The First Fifteen Lives of Harry August and 84K. My name is Hope Arden, and you won't know who I am. But we've met before -- a thousand times. It started when I was sixteen years old. A father forgetting to drive me to school. A mother setting the table for three, not four. A friend who looks at me and sees a stranger. No matter what I do, the words I say, the crimes I commit, you will never remember who I am. That makes my life difficult. It also makes me dangerous. The Sudden Appearance of Hope is a riveting and heartbreaking exploration of identity and existence, about a forgotten girl whose story will stay with you forever.

"ONE OF THE BEST BOOKS I'VE READ IN RECENT YEARS. THOUGHT PROVOKING, IMAGINATIVE AND PACKS A HELL OF AN EMOTIONAL PUNCH." --Adrian Tchaikovsky, author of Children of Time From one of the most imaginative writers of her generation comes an extraordinary vision of the future. Ven was once a holy man, a keeper of ancient archives. It was his duty to interpret archaic texts, sorting useful knowledge from the heretical ideas of the Burning Age—a time of excess and climate disaster. For in Ven's world, such material must be closely guarded so that the ills that led to that cataclysmic era can never be repeated. But when the revolutionary Brotherhood approaches Ven, pressuring him to translate stolen writings that threaten everything he once held dear, his life will be turned upside down. Torn between friendship and faith, Ven must decide how far he's willing to go to save this new world—and how much he is willing to lose. "A riveting tale of subterfuge and deadly self-indulgence" (Publishers Weekly, starred review) from award-winning author Claire North, Notes from the Burning Age puts dystopian fiction in a whole new light. Touch is an electrifying thriller by the author of The First Fifteen Lives of Harry August and 84K. He tried to take my life. Instead, I took his. It was a long time ago. I remember it was dark, and I didn't see my killer until it was too late. As I died, my hand touched his. That's when the first switch took place. Suddenly, I was looking through the eyes of my killer, and I was watching myself die. Now switching is easy. I can jump from body to body, have any life, be anyone. Some people touch lives. Others take them. I do both. More by Claire North:The Gameshouse84KThe End of the DayThe Sudden Appearance of HopeTouchThe First Fifteen Lives of Harry August

Jeff Winston, forty-three, didn't know he was a replayer until he died and woke up twenty-five years younger in his college dorm room; he lived another life. And died again. And lived again and died again -- in a continuous twenty-five-year cycle -- each time starting from scratch at the age of eighteen to reclaim lost loves, remedy past mistakes, or make a fortune in the stock market. A novel of gripping adventure, romance, and fascinating speculation on the nature of time, Replay asks the question: "What if you could live your life over again?"

Five years in the writing by one of science fiction's most honored authors, Doomsday Book is a storytelling triumph. Connie Willis draws upon her understanding of the universalities of human nature to explore the ageless issues of evil, suffering and the indomitable will of the human spirit. For Kivrin, preparing an on-site study of one of the deadliest eras in humanity's history was as simple as receiving inoculations against the diseases of the fourteenth century and inventing an alibi for a woman traveling alone. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of superstition and fear, Kivrin--barely of age herself--finds she has become an unlikely angel of hope during one of history's darkest hours. Praise for Doomsday Book "A stunning novel that encompasses both suffering and hope. . . . The best work yet from one of science fiction's best writers."--The Denver Post "Splendid work--brutal, gripping and genuinely harrowing, the product of diligent research, fine writing and well-honed instincts, that should appeal far beyond the normal science-fiction constituency."--Kirkus Reviews (starred review) "The world of 1348 burns in the mind's eye, and every character alive that year is a fully recognized being. . . . It becomes possible to feel . . . that Connie Willis did, in fact, over the five years Doomsday Book took her to write, open a window to another world, and that she saw something there."--The Washington Post Book World

A powerful dystopian vision of a world where money reigns supreme, from a World Fantasy Award-winning author. "An extraordinary novel that stands with the best of dystopian fiction, with dashes of The Handmaid's Tale." -- .Cory Doctorow The penalty for Dani Cumali's murder: \$84,000. Theo works in the Criminal Audit Office. He assesses each crime that crosses his desk and makes sure the correct debt to society is paid in full. These days, there's no need to go to prison -- provided that you can afford to pay the penalty for the crime you've committed. If you're rich enough, you can get away with murder. But Dani's murder is different. When Theo finds her lifeless body, and a hired killer standing over her and calmly calling the police to confess, he can't let her death become just an entry on a balance sheet. Someone is responsible. And Theo is going to find them and make them pay. Perfect for fans of 1984 and Never Let Me Go, Claire North's moving and unnerving new novel will resonate with readers around the world.
