"The Map of Time" gives readers a bit of a love story, a bit of mystery, a bit of science fiction, even a bit of biography, but it fails to fully develop any of these aspects and left me feeling cheated on all fronts. Palma does a fine job of setting the Victorian stage.

The New York Times bestselling author of The Map of Time returns with a mesmerizing novel casting H.G. Wells in a leading role, as the extraterrestrial invasion featured in The War of the Worlds is turned into a bizarre reality. A love story serves as backdrop for The Map of the Sky when New York socialite Emma Harlow agrees to marry millionaire Montgomery Gilmore, but only

A skeptical H. G. Wells investigates time-travel mysteries including an aristocrat's love affair with a murdered prostitute from the past, a Victorian woman's escape to the future, and a plot to murder celebrated authors to steal their written works.

The fate of the earth hangs in the balance as H.G. Wells' The War of the Worlds is transformed from the work of one writer's imagination into a terrifying reality for all mankind. 1898. New York socialite Emma Harlow

agrees to marry well-to-do Montgomery Gilmore, but only if he first accepts her audacious challenge: to reproduce the Martian invasion featured in H. G. Wells's popular novel *The War of the Worlds*. Meanwhile in London, Wells himself is unexpectedly made privy to certain objects, apparently of extraterrestrial origin, that were discovered decades earlier on an ill-fated expedition to the Antarctic. On that same expedition was an American crew member named Edgar Allan Poe, whose inexplicable experiences in the frozen wasteland would ultimately inspire him to create one of his most enduring works of literature. When eerie, alien-looking cylinders begin appearing in London, Wells is certain it is all part of some elaborate hoax. But soon, to his great horror, he realizes that a true invasion of Earth has indeed begun. As brave bands of citizens converge on a crumbling London to defend it against utter ruin, Emma and her suitor must confront the enigma that is their love, a bright spark of hope even against the darkening light of apocalypse. Palma dazzled readers with his instant *New York Times* bestseller *The Map of Time*. In *The Map of the Sky*, he embarks on an even more thrilling speculative journey, one that links the earth and the heavens, the familiar and the bizarre, the impossible and the inevitable.

final installment in the award-winning trilogy that The Washington Post called "a big, genre-bending delight." When the person he loves most dies in tragic circumstances, the mysterious protagonist of The Map of Chaos does all he can to speak to her one last time. A session with a renowned medium seems to offer the only solution, but the experience unleashes terrible forces that bring the world to the brink of disaster. Salvation can only be found in The Map of Chaos, an obscure, hand-written mathematical treatise that he is desperate to uncover. In his search, he is given invaluable help by Sir Arthur Conan Doyle, Lewis Carroll, and of course by H.G. Wells, whose Invisible Man seems to have escaped from the pages of his famous novel to sow terror among mankind. They alone can discover the means to save the world and to find the path that will reunite the lovers separated by death. Proving once again that he is "a master of ingenious plotting" (Kirkus Reviews), Félix J. Palma brings together a cast of real and imagined literary characters in Victorian London, when spiritualism is at its height. The Map of Chaos is a spellbinding adventure that mixes impossible loves, nonstop action, real ghosts, and fake mediums, all while paying homage to the giants of science fiction.

A conclusion to the trilogy that includes "The Map of Time" and "The Map of the Sky" finds its mysterious protagonist seeking an

"Utterly engaging...a page-turner that is certain to win the author legions of new readers and fans."—George R. R. Martin, author of A Game of Thrones It's spring on Nantucket and everything is perfectly normal, until a sudden storm blankets the entire island. When the weather clears, the island's inhabitants find that they are no longer in the late twentieth century...but have been transported instead to the Bronze Age! Now they must learn to survive with suspicious, warlike peoples they can barely understand and deal with impending disaster, in the shape of a would-be conqueror from their own time.

Set in postwar Malaya at the time when people and governments alike are bemused and dazzled by the turmoil of independence, this three-part novel is rich in hilarious comedy and razor-sharp in observation. The protagonist of the work is Victor Crabbe, a teacher in a multiracial school in a squalid village, who moves upward in position as he and his wife maintain a steady decadent progress backward. A sweetly satiric look at the twilight days of colonialism.

the New World? a world changed by the Great Disruption of 1799, when all the continents were flung into different time periods. Eight years ago, her parents left her with her uncle Shadrack, the foremost cartographer in Boston, and went on an urgent mission. They never returned. Life with her brilliant, absent-minded, adored uncle has taught Sophia to take care of herself. Then Shadrack is kidnapped. And Sophia, who has rarely been outside of Boston, is the only one who can search for him. Together with Theo, a refugee from the West, she travels over rough terrain and uncharted ocean, encounters pirates and traders, and relies on a combination of Shadrack's maps, common sense, and her own slantwise powers of observation. But even as Sophia and Theo try to save Shadrack's life, they are in danger of losing their own. The Glass Sentence plunges readers into a time and place they will not want to leave, and introduces them to a heroine and hero they will take to their hearts.
