Praise for NONPROFIT SUSTAINABILITY "This is much more than a financial how-to book. It's a nonprofit's guide to empowerment. It demystifies mission impact and financial viability using The Matrix Map to provide strategic options for any organization. A must-read for every nonprofit CEO, CFO, and board member." —Julia A. McClendon, chief executive officer, YWCA Elgin, Illinois "This book should stay within easy reaching distance and end up completely dog-eared because it walks the reader through a practical but sometimes revelatory process of choosing the right mix of programs for mission impact and financial sustainability. Its use is a practice in which every nonprofit should engage its board once a year." —Ruth McCambridge, editor in chief, The Nonprofit Quarterly "Up until a few years ago, funding and managing a nonprofit was a bit like undertaking an ocean voyage. Now, it's akin to windsurfing—you must be nimble, prepared to maximize even the slightest breeze, and open to modifying your course at a moment's notice. Innovative executive directors or bold board members who want their organization to be able to ride the big waves of the new American economy must read this book." —Robert L. E. Egger, president, DC Central Kitchen/Campus Kitchens Project/V3 Campaign "Most nonprofits struggle to find a long-term sustainable business model that will enable them to deliver impact on their mission. Thanks to Jeanne Bell, Jan Masaoka, and Steve Zimmerman help is now in sight. This book offers practical, concrete steps you can take to develop your own unique path to sustainability without compromising your mission." —Heather McLeod Grant, consultant, Monitor Institute, and author, Forces for Good: The Six Practices of High-Impact Nonprofits "At last! An urgently needed framework to prepare leaders to meet head-on the persistent twin challenges of impact and sustainability. This is a practical tool based on good business principles that can bring boards and staff members together to lead their organizations to sustainable futures." —Nora Silver, adjunct professor and director, Center for Nonprofit and Public Leadership, Haas School of Business, University of California, Berkeley "Together, Jeanne Bell, Jan Masaoka, and Steve Zimmerman equal wisdom, experience, and know-how on sustainability and lots of other things. Buy, read, and learn from this terrific book!" —Clara Miller, president and CEO, Nonprofit Finance Fund "Wisdom, experience, and know-how. Buy, read, and learn from this terrific book!" —Clara Miller, president and CEO, Nonprofit Finance Fund

A trillion-dollar industry, the US non-profit sector is one of the world's largest economies. From art museums and university hospitals to think tanks and church charities, over 1.5 million organizations of staggering diversity share the tax-exempt 501(c)(3) designation, if little else. Many social justice organizations have joined this world, often blunting political goals to satisfy government and foundation mandates. But even as funding shrinks, many activists often find it difficult to imagine movement-building outside the non-profit model. The Revolution Will Not Be Funded gathers essays by radical activists, educators, and non-profit staff from around the globe who critically rethink the long-term consequences of what they call the "non-profit industrial complex." Drawing on their own experiences, the contributors track the history of non-profits and provide strategies to transform and work outside them. Urgent and visionary, The Revolution Will Not Be Funded presents a biting critique of the quietly devastating role the non-profit industrial complex plays in managing dissent. Contributors. "HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
