The Oligarchs: Wealth and Power in the New Russia is a 2001 non-fiction book written by Pulitzer Prize-winning author and Washington Post contributing editor David E. Hoffman . The book chronicles events of the transitional period in Russia, from the dissolution of the Soviet Union in the early 1990s, and the subsequent privatization in Russia, to the 1996 presidential election, the 1998 Russian financial crisis, and Vladimir Putin 's rise to power in the late 1990s.

## **The Oligarchs - Wikipedia**

A ground-breaking history of the birth of Russian capitalism as seen through the lives of six men who played central roles in the great drama of change and transformation. They became known as the oligarchs—men of wealth and power who ruled the country. The six are: Boris Berezovsky, a risk-taking powerbroker; Vladimir Gusinsky, an ambitious media magnate; Mikhail Khodorkovsky, a fiercely determined oil baron; Alexander Smolensky, an earthy banker; Anatoly Chubais, the steely economic ...

Russian oligarchs are business oligarchs of the former Soviet republics who rapidly accumulated wealth during the era of Russian privatization in the aftermath of the dissolution of the Soviet Union in the 1990s. The failing Soviet state left the ownership of state assets contested, which allowed for informal deals with former USSR officials as a means to acquire state property. Historian Edward L. Keenan has drawn a comparison between the current Russian phenomenon of oligarchs and the system o

In this saga of brilliant triumphs and magnificent failures, David E. Hoffman, the former Moscow bureau chief for the Washington Post, sheds light on the hidden lives of Russia's most feared power brokers: the oligarchs. Focusing on six of these ruthless men— Alexander Smolensky, Yuri Luzhkov, Anatoly Chubais, Mikhail Khodorkovsky, Boris Berezovsky, and Vladimir Gusinsky—Hoffman shows how a rapacious, unruly capitalism was born out of the ashes of Soviet communism.

Focusing on six of Russia's most feared power brokers - the oligarchs, David Hoffman reveals how a few players managed to take over Russia's cash-strapped economy and then divvy it up in loans-for-shares deals.

Vladimir Gusinsky—Hoffman shows how a rapacious, unruly capitalism was born out of the ashes of Soviet communism.

Beyond Oligarchy is a collection of essays by leading scholars of contemporary Indonesian politics and society, each addressing effects of material inequality on political power and contestation in democratic Indonesia. The contributors assess how critical concepts in the study of politics—oligarchy, inequality, power, democracy, and others—can be used to characterize the Indonesian case, and in turn, how the Indonesian experience informs conceptual and analytical debates in political science and related disciplines. In bringing together experts from around the world to engage with these themes, Beyond Oligarchy reclaims a tradition of focused intellectual debate across scholarly communities in Indonesian studies. The collapse of Indonesia's New Order has proven a critical juncture in Indonesian political studies, launching new analyses about the drivers of regime change and the character of Indonesian democracy. It has also prompted a new groundswell of theoretical reflection among Indonesianists on concepts such as representation, competition, power, and inequality. As such, the onset of Indonesia's second democratic period represents more than just new point of departure for comparative analyses of Indonesia as a democratizing state; it has also served as a catalyst for theoretical and conceptual development.

A New York Times Bestseller A multigenerational saga of two families, who rose from immigrant roots to the pinnacle of wealth and power, that tracks the unraveling of American democracy. In American Oligarchs, award-winning investigative journalist Andrea Bernstein

## Download Ebook The Oligarchs Wealth And Power In The New Russia

tells the story of the Trump and Kushner families like never before. Their journey to the White House is a story of survival and loss, crime and betrayal, that stretches from the Klondike Gold Rush, through Nazi-occupied Poland and across the American Century, to our new gilded age. In building and maintaining their dynastic wealth, these families came to embody the rising nationalism and inequality that has pushed the United States to the brink of oligarchy. Building on her landmark reporting for the acclaimed podcast Trump, Inc. and The New Yorker, Bernstein's painstaking detective work brings to light new information about the families' arrival as immigrants to America, their paths to success, and the business and personal lives of the president and his closest family members. Bernstein traces how the two families ruthlessly harnessed New York and New Jersey machine politics to gain valuable tax breaks and grew rich on federal programs that bolstered the middle class. She shows how the Trump Organization, denied credit by American banks, turned to shady international capital. She reveals astonishing new details about Charles Kushner's attempts to ensnare his brother-in-law with a prostitute and explores how Jared Kushner and his father used a venerable New York newspaper to bolster their business empire. Drawing on more than two hundred interviews and more than one hundred thousand pages of documents, many previously unseen or long forgotten, Bernstein shows how the Trumps and the Kushners repeatedly broke rules and then leveraged secrecy, intimidation, and prosecutorial and judicial power to avoid legal consequences. The result is a compelling narrative that details how the Trump and Kushner dynasties encouraged and profited from a system of corruption, dark money, and influence trading, and that reveals the historical turning points and decisions—on taxation, regulation, white-collar crime, and campaign finance laws—that have brought us to where we

are today.

The New York Times bestselling author of *Bringing Down the House* and *The Accidental Billionaires* tells his most incredible story yet: A true drama of obscene wealth, crime, rivalry, and betrayal from deep inside the world of billionaire Russian oligarchs that Booklist called “one more example of just how talented a storyteller [Mezrich] is.” Meet two larger-than-life Russians: former mathematician Boris Berezovsky, who moved into more lucrative ventures as well as politics, becoming known as the Godfather of the Kremlin; and Roman Abramovich, a dashing young entrepreneur who built one of Russia’s largest oil companies from the ground up. After a chance meeting on a yacht in the Caribbean, the men became locked in a complex partnership, surfing the waves of privatization after the fall of the Soviet regime and amassing mega fortunes while also taking the reins of power in Russia. With Berezovsky serving as the younger entrepreneur’s krysha—literally, his roof, his protector—they battled their way through the “Wild East” of Russia until their relationship soured when Berezovsky attacked President Vladimir Putin in the media. Dead bodies trailed Berezovsky as he escaped to London, where an associate died painfully of Polonium poisoning, creating an international furor. As Abramovich prospered, Berezovsky was found dead in a luxurious London town house, declared a suicide. With unprecedented, exclusive first-person sourcing, Mezrich takes us inside a world of unimaginable wealth, power, and corruption to uncover this exciting story, a true-life thriller epic for our time—“Wolf Hall on the Moskva” (Bookpage).

For centuries, oligarchs were viewed as empowered by wealth, an idea muddled by elite theory

## Download Ebook The Oligarchs Wealth And Power In The New Russia

early in the twentieth century. The common thread for oligarchs across history is that wealth defines them, empowers them and inherently exposes them to threats. The existential motive of all oligarchs is wealth defense. How they respond varies with the threats they confront, including how directly involved they are in supplying the coercion underlying all property claims and whether they act separately or collectively. These variations yield four types of oligarchy: warring, ruling, sultanistic and civil. Moreover, the rule of law problem in many societies is a matter of taming oligarchs. Cases studied in this book include the United States, ancient Athens and Rome, Indonesia, the Philippines, Singapore, medieval Venice and Siena, mafia commissions in the United States and Italy, feuding Appalachian families and early chiefs cum oligarchs dating from 2300 BCE.

Corruption is a threat to democracy and economic development in many societies. It arises in the ways people pursue, use and exchange wealth and power, and in the strength or weakness of the state, political and social institutions that sustain and restrain those processes. Differences in these factors, Michael Johnston argues, give rise to four major syndromes of corruption: Influence Markets, Elite Cartels, Oligarchs and Clans, and Official Moguls. In this 2005 book, Johnston uses statistical measures to identify societies in each group, and case studies to show that the expected syndromes do arise. Countries studied include the United States, Japan and Germany (Influence Markets); Italy, Korea and Botswana (Elite Cartels); Russia, the Philippines and Mexico (Oligarchs and Clans); and China, Kenya, and Indonesia (Official Moguls). A concluding chapter explores reform, emphasising the ways familiar measures should be applied - or withheld, lest they do harm - with an emphasis upon

the value of 'deep democratisation'.

This forcefully argued book offers a provocative picture of the political, intellectual, and economic forces that have shaped the history of the United States, offering an extensive and in-depth critique of laissez-faire doctrine and a novel reformulation of the work of American System writers, Gibson traces America's rise to global supremacy.
