The Paradox Of

America: Social Life and Customs.

For Americans entering the twenty-first century, it is the best of times and the worst of times. Material wealth is at record levels, yet disturbing social problems reflect a deep spiritual poverty. In this compelling book, well-known social

psychologist David G. Myers asks how this paradox has come to be and, more important, how we can spark social renewal and dream a new American dream. Myers explores the research on social ills from the 1960s through the 1990s and concludes that the materialism and radical individualism of this period have cost us

communal civility, away from efforts to raise self-esteem and toward attempts to arouse social responsibility, away from “ whose values? ” and toward “ our values. ” Myers analyzes in detail the research on educational and other programs that deal with social problems, explaining which seem to work and why. He then

and sustainability, and how the choices between these are ultimately political. This timely book will be of great interest to students, scholars, practitioners and policy makers working on gender, sustainable development, development studies and ecological economics.

Why is a country with

some of the world's most fertile land also the home of so many hungry people? Betsy Hartmann and James Boyce, both Bengali-speaking anthropologists, spent two years in Bangladesh investigating the paradox of hunger in a "basketcase" country that actually produces enough grain for its people. *Needless Hunger*

follows the history and structure of Bangladesh society, and also draws us into the daily lives of the people of Katni, the village where the authors lived. "There is no natural barrier to filling the basic human needs of Bangladesh's people," they conclude. "But there is the man-made barrier of a social order benefiting the few at the

expense of the many."

They found that the foreign aid pouring into the country actually

entrenches the very elite, who keep the majority powerless and hungry.

Needless Hunger is also a book of hope, describing the strength and potential of the Bangladesh people, and their desire for a society where food-producing resources are

controlled by the majority. Book jacket.

A description of the current global food system, this book challenges our ethical responsibility to the global poor and implicates us all for failing to curb global hunger and malnutrition.
